

September 3, 1946

Dear Dr. Stenzel —

Mr. Graham left Saturday for Texas A.M. I have still a few "bugs" to draw for him as he did not get the things ready in time for me to do them before he went. So I will do them in my spare time during the next two weeks. He was appointed Assoc. Prof. there. I expect that he may be very happy and well situated there. He plans to look you and Mrs. Plummer up at the B. of E. G. (if you be still there). He is well suited to teach in a small school and likes the close contact with students which it offers. Also he likes the South — went to school in Alabama.

Nobody has been appointed for the job here yet! I don't know what the score is. Nor does Graham, I think.

Let me hear from you. I think about you often and wonder what has been happening there and what you are planning to do.

Sincerely,

Lis C. Taylor —
