Mr. H. B. Stenzel, Sec., Treas.
Soc. Econ. Palintologists
Austin, Texas

Dear Sir:-

For some time past I have been working on the micro-faunas of the Buxton-Moabara Cretaceous and now have the project sufficiently far along to present some facts. I should like to get a paper on the program for the April meeting and would appreciate information on procedure to secure time on the program.

Very sincerely yours,
W. C. Toepelman
