Dr. W. H. Twenhofel
Department of Geology
The University of Wisconsin
Madison, Wisconsin

Dear Dr. Twenhofel :

You flatter me very considerably by suggesting that I prepare a manuscript to be printed in the Journal of Sedimentary Petrology. However, due to the pressure of other work I never prepared a manuscript for the talk I made at Fort Worth nor will it be possible for me to do so now. Practically all my time is taken up with field work and several of my other manuscripts are already behind schedule. I am sorry I cannot help you out in this matter.

You probably have heard that the A.A.P.G. is going to contribute \$1,500.00 to the G.E.P.M. this year.

Cordially yours,

H. B. Stenzel, Geologist
