29th October, 1957.

Dear Dr. Stenzel,

I have completed the first part of my work on the Jurassic oysters, but before sending it to press would much like to make reference to the paper you read at the Cretaceous symposium in Mexico. The Mexicans have not yet got round to sending even the publications they had in print in 1956, and I have not been able to discover whether the Cretaceous symposium has yet appeared. All I know is that it has not yet arrived in England.

I would be much obliged if you would let me know of the programme of publication as it affects your paper.

With cordial good wishes,

Yours sincerely,

P. C. Sylvester Bradley
