

January 24, 1949

Mr. R. D. Roberts, Field Supervisor
Schio Petroleum Company
1973 W. Gray
Houston 19, Texas

Dear Mr. Roberts:

In reference to your letter of January 21 concerning Mr. Wilton Canova Vercellino. Mr. Vercellino has been known to me since childhood. He is a capable boy who has a great deal of initiative. I am stressing this point because I believe he excels in it. He has had considerable preparation through the Geology Department of Texas A. & M. College and should be fully qualified from the point of view of preparation. He has a pleasing personality and gets along exceedingly well with his fellow students. If you are particularly interested in someone with initiative, I believe he will come up to your fullest expectations. I recommend him fully for your serious consideration.

Very truly yours,

H. B. Stenzel, Geologist
