Dr. H. B. Stenzel
Bureau of Economic Geology
University of Texas
Austin, Texas

Dear Dr. Stenzel:

On April 25th, we plan to drive to Houston, Texas and either enroute or on the return trip, I would like to visit a few localities at which I may study the Jackson Claiborne problem of Texas and Louisiana.

Will you please be kind enough to suggest desirable localities where these beds are exposed and available for study? If directions as to how to get to the outcrop are included, it will greatly facilitate our study.

Very truly yours,

A handwritten signature in cursive script that reads "Bob".
