

HOUSTON GEOLOGICAL SOCIETY

HOUSTON, TEXAS

December 3, 1934

W. F. BOWMAN, PRESIDENT,
TIDEWATER OIL CO.
JOHN C. MILLER, VICE-PRESIDENT,
THE TEXAS CO.
PHIL F. MARTYN, SECRETARY-TREASURER,
HOUSTON OIL CO. OF TEXAS

Mr. H. B. Stenzel
Bureau of Economic Geology
University of Texas
Austin, Texas

Dear Mr. Stenzel:

I understand that you have mapped contacts and made detailed subdivisions of the Jackson formation in the vicinity of Bryan in Brazos County. Inasmuch as the Houston geologists are very much interested in the Jackson formation, I am wondering what the chances would be to have you give us a talk before the Houston Geological Society, describing these subdivisions and presenting a map showing contacts.

The Houston Geological Society has a luncheon at the Houston Club on each Thursday. After this luncheon, we generally have a paper presented. These papers require usually from thirty minutes to one hour and fifteen minutes. They are informal and your paper will probably not require any more preparation than your notes to discuss. If you think it would require more time to properly present this subject, we would be glad to arrange a night meeting at some time convenient to you.

Thanking you to give me your ideas in regard to such a paper, I am

Very truly yours,

W. F. Bowman
