5th. July, 1935.

Dr H.B. Stenzel,
University of Texas,
AUSTIN.

Dear Dr Stenzel,

I have your letter of 11th. June, and now I have received the Cirripedes from the Claiborne Eocene, and these will soon claim my attention.

Please accept my thanks for sending the American Cirripede references, although I already had them, and also for offering to send Miocene barnacles. I am not dealing at present with the latter, for my next work will deal only with the Tertiary stalked Cirripedes (Scalpellum, Pollicipes, Lepas, etc.).

You have probably by now received the separates I sent to you.

Yours sincerely,

J. N. Collins.
