

October 29, 1940

Mr. R. D. Woods
1085 Humble Building
Humble Oil and Refining Company
Houston, Texas

Dear Mr. Woods:

Many thanks for your nice letter of October 28.

Miss Casey is sending you a separate of "The Yegua Problem." I shall remember to send you a copy of the Carrizo paper when it is published.

Concerning the Zilpha, you are correct in assuming that the Zilpha member at Smithville corresponds to the Zilpha of Mississippi. This is a correlation which I have been able to make only recently. I had hoped that it would remain unnoticed, because I am not quite ready to publish it. However, your sharp eyes have noticed it. I did not explain the correlation of the Zilpha at Smithville for the same reason.

Sincerely yours,

H. B. Stenzel, Geologist
