Dr. Karl M. Wilbur
Department of Zoology
Duke University
Durham, North Carolina

Dear Dr. Wilbur:

Thank you very much for the reference to Wada's publication. As it is, I have not seen his publication. These unusual journals, like the Bull. Natl. Pearl Res. Lab., are not to be found in Houston libraries. I am very much handicapped by lack of good library facilities here.

Enclosed is a reprint of the squib on aragonite.

With best personal regards,

Sincerely,

H. B. Stenzel
