P .O.

Houston, Texas.

Dear Dr. Stenzel

I am glad you were able to confirm the identity of the specimens of cochlear sent to Ranson by Prof. Day.

Prof. J.H Day  
Zoology Department  
University of Cape Town.  
Rondebosch, Cape Town.

I am writing to him to tell him you are wanting more specimens of cochlear. Do not be disappointed if he has no more. Several oysters have been submitted to me, but I have not found a Pycnodonte among them.

One would suspect that Pycnodonte was the French form, and not intended to be a scientific name. But Neave ~~is~~'s Nomenclator accepts it; and Sowerby emended it !

Yours sincerely

*Keppel H. Barnard.*
