

7/3/43 - No. 23

LIQUID FUEL ECONOMIES

The Fuel Efficiency Committee of the Ministry of Fuel and Power, under the Chairmanship of Dr. E.S. Grumell, has already covered a wide field in the industrial use of fuel but in order as far as possible to reduce the consumption of imported oil, a special Sub-Committee of experts has now been set up under the Chairmanship of Dr. A.E. Dunstan to consider means whereby this may be achieved.

Dr. Dunstan is a Past President of the Institute of Petroleum.

A bulletin on the efficient utilisation of liquid fuel is now being prepared and will shortly be issued to industrial consumers.
