22nd February, 1954.

Dear Mr. Brice,

Thank you for your letter of February 19th. I am sorry to hear that Sir John Myres is indisposed and hope it will not be long before he is able to tackle proofs again. He had told me that you were kindly helping him with these and I think it will perhaps save time in the long run if I send the next batch of proofs to you. Actually a considerable number have come in this morning, so that your letter is opportune. Please do not send them back piece-meal, but keep everything until it will be possible to return the corrected pages in one batch to the Press.

Yours sincerely,

Dr. Philip Corder
