Dear Mr Brice

I answer your letter of 5-2-57.

Yes, you may reproduce the drawings of M^{rs} Phanostrateas, if you wish.

Gourner seems to be the name of the exact site where the Minoan settlement is in the vicinity of Apodhoulou. 20 m. logically can be only 20 minutes (miles has no sense and miles it is impossible)

The difficulties of the ^{whole} problem of the decipherment I have exposed clearly in my "recension", published in Κριτικὰ Χρονικά - Η' p. 143 ss.

There I have also exposed the contra-
dictis coming from the archaeolo-
gical evidence, and they are
indeed extremely great ones.

If I find an offprint I will send
it to you-

Always to your service

Yours sincerely

A. J. Evans
