

6.9.43 - No. 36

VISIT OF INDIAN SOLDIERS

As has been already announced in the Press, a small representative contingent of the 4th Indian Division, amounting to approximately 30 officers and men, will be arriving shortly in this country.

The contingent will contain representatives of famous British and Indian Regiments constituting the Division.

The object of the visit is to enable people in this country to learn something of, and pay tribute to the Indian Army. Arrangements which are now being planned, will include a stay in the London area, the Liverpool - Manchester area and Scotland.

Tentative arrangements are already in hand for a full programme of receptions and visits. The Lord Mayor of London has signified his wish to receive the contingent.

Visits to factories, Bomber and Fighter Stations as well as receptions by Civic Authorities are also on the programme.

(NOTE: A fuller handout will be issued when the Contingent has arrived and particulars of the individual records of its members are available.)
