Dear Bennett,

This is to acknowledge the receipt of your letter of the 27th including  
the 8 plates of photographs  
the 8 plates of drawings  
the plan of the palace.

I have already sent them to the printer, in order that he may begin with the book.

I am thus waiting for the "copies" of the texts, the introduction, the commentary, the index, and the table of hands. The new photograph and drawing of 1210 can be put instead of the present ones at any moment before the printing, and it goes without saying that the edition would be greatly improved with the ninth plate you are now contemplating.

Thank you also for the new installment of your "Mycenaean bibliography" and for the information about the meetings of the American Classical Association. It seems to me that you have made hard work and that there is widespread interest in Mycenaean in your own country.

Sincerely yours,
