Professor Emmett L. Bennett, Jr.  
Dear Professor Bennett,

A mere "thank you" seems trite in exchange for the valuable store of information you enclosed in your letter. May I express my gratitude for your promptness and interest. I have acquainted myself with many of the periodicals included in the bibliography, but as yet I've had a little difficulty securing the books named in your letter proper. Our College Library has the Decipherment of Linear B on order, and is expecting it soon.

Your keeping me on your mailing list will be much appreciated.

Again, may I thank you sincerely.

In gratitude,  
Sister Miriam Thomas

L. J. Chr.!
