TDR Annual User Survey: 2018

March 19, 2019 12:12 PM MDT

## Q1 - TDR's interface is:

#	Field	Choice Count
1	Extremely easy to use	33.33% 3
2	Moderately easy to use	55.56% 5
3	Moderately difficult to use	11.11% 1
4	Extremely difficult to use	0.00% 0

9

Showing rows 1 - 5 of 5

## Q2 - The user documentation for TDR is:

#	Field	Minimum	Maximum	Mean	Std Deviation	Variance	Count
1	The user documentation for TDR is:	16.00	18.00	17.00	0.82	0.67	9

#	Field	Choice Count
1	Very useful	33.33% 3
2	Moderately useful	33.33% 3
3	Not at all useful	0.00% 0
4	I don't know, I've never looked	33.33% 3

9

Showing rows 1 - 5 of 5

### Q3 - Library support staff for TDR has been:

#	Field	Choice Count
1	Very responsive to questions	44.44% 4
2	Somewhat responsive to questions	11.11% 1
3	Not at all responsive	0.00% 0
4	I don't know, I've never asked for help	44.44% 4

9

Showing rows 1 - 5 of 5

Q4 - Please briefly describe any positive experiences you've had with TDR over the past year.

---

I just set up a dataset and everything went smoothly and was self-explanatory.

Pretty easy to setup; automatically recognized UT Austin enrollment via EID login

My files are unusually large, and I've had a lot of very good personalized help uploading them to my dataverse.

Easy to create datasets and upload files. Also easy to delegate these tasks to students.

Discovered it existed, signed up with an account no problem, and figured out the services it provides - indeed without any help. That said, I am a Professor of Computer Science and have been researching the state of the art of data repositories and data lakes; looking for some open research problems. So I'm not someone just off the street jumping into the middle. Regards, Dan Miranker, [miranker@cs.utexas.edu](mailto:miranker@cs.utexas.edu)

Q5 - Please briefly describe any difficulties or problems you've had with TDR over the past year.

problems with too-small dataset size during uploads

I initially tried to upload a large number of files at once and this did not work; it might be useful to add a note telling users to upload a few things at a time (or maybe most people already know this).

IIRC the login process is kind of finicky due to UT integration

Data upload for large files is difficult and not well documented.

Zip files automatically expand on upload, which isn't ideal. There's a workaround but would better if this could be toggled

## Q6 - Please describe any functionality you'd like to see added to TDR.

Please describe any functionality you'd like to see added to TDR.

---

Unclear what benefits it confers vs. other public+free Dataverses like Harvard Dataverse

The site is still a little buggy when uploading files. I occasionally have to upload things twice before they show up.

Needs much better documentation!

I think upload templates would be helpful. Most of our datasets have the same structure and types of files so starting from a template would save some time.

## Q4 - Topics

#	Field	Choice Count
1	Unknown	100.00% 5

Showing rows 1 - 1 of 1
