Dear Mr. Bennett:

It was nice to hear from you and to learn that you have found a new home down there and are continuing your work in Minoan.

I find the bibliography very useful and would like to receive the thirty preceding pages if they are still available. I learned from the bibliography that Palmer seems to have seconded Furumark in explaining Minoan "A" as Luvian. This seems to me much more likely than Gordon's thesis. By the way, in his last article in the Journal of Near Eastern Studies, Gordon seems to have shifted the basis of his decipherment completely although he sticks to his main contention.

Cordially yours,

Albrecht Goetze
