Faculty to Act On Motion For Athletic Changes

Dr. Law Asks Disapproval
Of Employment Of
Students

Meet at 4 o'clock

Six Weeks' Summer School
Will Be Discussed
Today

Reverberations of the charges of subsidization of athletics will be sounded in the University general faculty meeting scheduled for this Thursday at 4 o'clock when Dr. R. A. Law's motion that "the general faculty disapprove the employment of students competing in athletics for instructors in physical training" comes up for final vote.

Further discussion will be given to the question pending before the body that the faculty should go on record as requesting the Board of Regents of the University to reduce the summer session of the University to six weeks in order that the cost of it may be kept within the appropriations provided by the legislature. This question has been before the faculty for discussion during previous meetings.

Dr. Law, who was succeeded as chairman of the Athletic Council this year by Dr. D. K. Brace, presented the motion to the faculty at the Tuesday meeting. Dr. E. R. Sims, another member of the Athletic Council of last year, is sustaining Dr. Law in the motion. Although the motion is not designed to produce any definite action, it would lay down a precedent upon which could be predicated some rules and regulations of extensive effect.

As present there are seven students who act in the capacity of assistants on the men's physical training staff; however, Dr. Law averred that his motion was not directed at them. He explained

Present Day Club Collects Journals For Farm Women

Definite plans for starting a circulating library of current magazines and journals for the rural women of Travis County were made by the Present Day Club at a meeting Tuesday at the University Commons.

Magazines are to be collected and brought to B. Hall 19 for distribution. The periodicals will be delivered to the rural women by the club members.

A committee composed by Anne McGarry, Agnes Nemir, and Beulah Belle Joss will attend to the collecting of the magazines. Miss Ruth Allen, adjunct professor of economics and an associate member, will be in charge.

Cowboys to Drill For T. C. U. Game

Plans for activities during the remainder of the football season will be discussed at a meeting of the Cowboys this afternoon at 5 o'clock in front of the Main Building, stated Jake Looney, foreman.

Drills for the T. C. U. game also will be practiced, and it is important that all Cowboys be present, Looney urged.

Bess Jane Logan Leaves for East

Bess Jane Logan, tutor in journalism, left Wednesday for Wilkes Barre, Penn., where she will spend three months with her sister, Mrs. Mamie Stackhouse.

Since the death of her mother, Mrs. E. J. Logan, who died October 26, Miss Logan has not met her classes in news gathering and reporting. She plans to resume her work February 1.

Williams to Speak To Chemistry Club

A talk by Dr. O. B. Williams, associate professor of bacteriology, will be the main feature of the program of the regular bi-monthly meeting of the Chemistry Club at 8 o'clock this Thursday night in K Hall 5.

After the program, an informal meeting will be held and refreshments will be served.

ASHBEL MEETS NOV. 21

Ashbel Literary Society will meet Thursday, November 21, instead of this Thursday, it was announced by Mary Jo Fitzgerald, president. A new historical book, "The Raven," by Marquis James, will be reviewed at the meeting.

Plan New Work For B.A. School, Says Fitzgerald

Hotel Management Courses
May Be Offered Next
Year

Cooperation Given

Texas Hotel Association
To Give Students
Experience

Dr. J. A. Fitzgerald, dean of the School of Business Administration, is arranging the new courses in hotel management to be given in the University.

R. Bruce Carter, chairman of the educational committee of the Texas Hotel Association, has deplored the shortage of trained hotel executives in Texas. The Texas Hotel Association has agreed to cooperate with the University in the adoption of hotel management courses so that students of these courses will have practical experience.

The following hotels have expressed willingness to employ a hotel training student: Baker Hotel, Dallas; Hilton Hotel, Houston; Hotel Paso del Norte, El Paso; Warwick Hotel, Houston; Rice Hotel, Houston; Lamar Hotel, Houston; Plaza Hotel, San Antonio; Jefferson Hotel, Dallas; St. Anthony Hotel and Bluebonnet Hotel, San Antonio.

"We hope to be able to offer hotel management courses next fall," stated Dr. Fitzgerald. "Then students may take a B.B.A. degree, majoring in hotel management."

New Men Named For Membership In Friar Order

Beaty, Payne, Dunlap And
Toeppelwein Elected
To Society

Curtis A. Beaty
Hugh G. Dunlap
Robert M. Payne
Earl W. Toeppelwein

Friar is the senior honor society of the University. The society was founded in 1911. Its object is to confer the honor of membership upon the eight most eligible men chosen from each senior class of the various departments and schools of the entire University, and to give those men selected a medium of associating together with members of the faculty of the University, prominent citizens and alumni invited by the society to meet with it at the formal banquet board for the discussion of events, affairs, problems, and tendencies within and without the University.

Elect Twice a Year
Friars elect new members twice each scholastic year. In the spring term it elects from the junior classes the four men that stand out as the most eligible for membership. In the following fall term it elects four more eligible men from the same classes who are then in their senior year.

Purely Honorary
Election to Friar is purely honorary. Membership in social organizations, affiliations and popularity with the University and mere prominence are not qualifications upon which election to Friar is based.

The society elects those candidates for any degree who stand out from the members of their class and represent the most well-rounded type of college men.

Friars at the University are Leslie Byrd, Marvin Brown, Roy Canon, Burt Dyke, William Ford, Albert Jones, William L. McGill, Arno Nowotny, James Parke, Nono Rees, George Seay, Claude Voyles, and A. W. Walker, Jr.

Curtain Club Has Meeting Tonight

Fred Meredith has announced a special meeting of the Curtain Club for this Thursday night at 7 o'clock in S Hall to complete the plans for the production of "The Queen's Husband." Meredith is president of the club.

McCurdy Lauds Students' Work In Union Drive

Appreciation of the response made by the new students in the student Union drive which has been conducted on the campus for the past ten days was expressed in a letter by John A. McCurdy, executive secretary of the Ex-Students' Association. The letter read as follows:

The Ex-Students' Association of the University of Texas 2300 San Antonio St., Austin November 13, 1929
New Students of 1929:

I want to take this means of expressing to you my own personal appreciation and the appreciation of the Union executive committee for the part you have taken in making reality of our dream for a University Union. The total raised in the campaign just completed did not reach the goal which you set for yourselves but in spite of that fact it represented a great deal of hard work and in many cases sacrificial giving.

The Union project is moving forward slowly but surely. The first building of the group, the gymnasium-auditorium, is half completed; the second building, the women's gymnasium, will be started in the very near future; the third building, the central Union building, which will be the organization and social headquarters for the whole student body, will be started just as soon as payment of pledges will warrant it. The gift you have just made will add materially to the ultimate completeness and success of this great project. As new students the most of you should have the opportunity of seeing this whole project completed before you are much more than half way through your University career. To you then will come more direct benefits from your giving than has been the case with any of those who have preceded you.

I would also like to extend grateful thanks to The Daily Texan for its fine cooperation in the campaign and to the entertainment committee for making our daily luncheons such pleasant affairs.

In conclusion, may I express the hope that in this Union campaign you, new students of 1929, may have experienced some of the pleasure and satisfaction that comes from having given something of your time and money and of yourselves to your University, and that this may be only the first of many things that you will do for the University of Texas in the years to come.

Yours for Texas,
JOHN A. MCCURDY,
Executive Secretary.

Aviation Society Will Meet Tonight

The University Aeronautical Society will meet this Thursday night at 7:15 o'clock in Engineering Building 100. A. P. Barrett, who is connected with the Texas Air Transport Company in Fort Worth, has been extended an invitation to attend the meeting. Mr. Barrett likely will make a short address. Frank G. Posey, president of the society, stated.

Mrs. Arno Nowotny Has Operation

Mrs. Arno Nowotny, wife of the assistant dean of men, underwent an operation for appendicitis Wednesday morning at St. David's hospital.

Reports late Wednesday night indicated that her condition was satisfactory.

SCRIBBLERS MEET TONIGHT

Two stories will be read to the Scribblers at their second meeting of the year tonight. The meeting will be held at 1009 West Twelfth Street at 8 o'clock. Charles Ramsdell, president, will bring several business matters before the group.

STAR IN PLAY

Bess Olson will enact the role of the Queen in the coming Curtain Club production, "The Queen's Husband." This attraction, written by Robert E. Sherwood, a former editor of "Life," will be presented in the near future by the Curtain Club.

Fireside Forum Program Extends To December 13

Faculty Members, Campus
Leaders Conduct
Meetings

The schedule for the remainder of the week of the student Fireside Forums has been announced by W. A. "Block" Smith, secretary of the Y.M.C.A. The meetings, conducted by 55 members of the faculty and others on the campus, will continue through Friday, December 13.

Fifteen forums met Wednesday night. The discussions at the different houses were led by the following: Clyde Littlefield, Alpha Rho Chi; Dr. Frederick Eby, Copeland house; L. H. Wharton, Little Campus; D. A. Penick, Newson house; Frederick Walker, Petty house; H. J. Ettlinger, Phi Sigma Delta; Frank Bobbitt, Sigma Nu; George Baker, Delta Theta Phi; H. C. Blodgett, Gafford house; C. A. Wiley, Griffith house; A. W. Smith, Hessey house; Berry Whitaker, Hullett's house; Rabbi Weinstein, Tau Delta Phi house; V. I. Moore, Theta Xi house.

Elwood Griscom will have charge of the discussion at the Sigma Eta Chi house Friday night.

Nine groups will meet this Thursday night with the following leaders: R. A. Cox, Sigma Alpha Mu; O. B. Williams, Delta Sigma Phi; J. W. Calhoun, Foster house; John McCurdy, Half Moon house; Dr. E. C. H. Bantel, Hibbett house; W. T. Rolfe, Alpha Tau Omega house; J. A. Fitzgerald, Beverly house; Father Blakslee, McDonald house; L. W. Payne, Y. M. C. A.

The subjects of the forum cover the different phases of student life, world problems and other topics of interest.

Engineer Teachers Attend Convention

Phil Ferguson, J. A. Focht, and S. P. Finch, professors of civil engineering, attended the National Highway Convention in San Antonio Wednesday. The day was designated as structural engineering day.

Mr. Finch returned Wednesday night. Mr. Ferguson and Mr. Focht will attend the entire convention and plan to make the trip to Mexico Friday and Saturday with the convention delegates, stated T. U. Taylor, dean of the College of Engineering.

Pierian Society To Discuss Play

"The King's Henchmen," by Edna St. Vincent Millay, will be the topic for discussion at the meeting of the Pierian Literary Society this Thursday at 5 o'clock in Main Building 172.

It was decided at the last meeting that the programs should be conducted in discussion form, and each member has been asked to read all available material on that subject before the next meeting.

Winton to Speak At Geology Meet On November 15

Address Will Be Given On
'Recent Advances In
Paleontology'

Field Trips Held

Society Entertained By
Program, Dinner
Saturday

Dr. W. M. Winton, head of the department of geology and biology of Texas Christian University, will give an address on the subject "Recent Advances in Paleontology" before the Society of Economic Paleontologists and Mineralogists in session with the Southwestern Geological Society.

The members of the society will be the guests of the department of geology and the Bureau of Economic Geology of the University Saturday, November 16. A field trip to points of interest around Austin will occupy Saturday morning. Saturday afternoon has been left open in order that the delegates may attend the T.C.U.-Texas football game. A banquet, followed by speeches and the reading of papers, will be held Saturday night.

The officers of the society are Dr. Marcus A. Hanna of Houston, president; Dr. J. B. Reeside of the United States Geologic Survey, vice president; Dr. J. A. Cushman, micro-paleontologist of Harvard University, editor; and F. B. Plummer, of the Bureau of Economic Geology of the University, secretary-treasurer.

Daniels Speaks To Methodists Sunday Morning

Missionary Kept in Field
By Daniels' Fund
Visits Here

J. W. Daniels, missionary to Brazil from the University Methodist Church, who is now at home in San Antonio on a year's leave from the field, will speak at the morning service at the Methodist Church Sunday, November 17 at 11 o'clock. His subject will be concerned with experiences in the missionary work which he has been doing at Passo Fundo, Brazil.

Immediately after his graduation from the University in 1914, Mr. Daniels was sent to Brazil by the student class of the University Methodist Church. The class has kept him in the missionary field and enabled him to carry on his work there by means of the Daniels' Fund, which has recently changed its name to the Wesley Foundation.

Beginning as a pioneer in missionary work in Brazil, Mr. Daniels has, in the fifteen years of his work there, seen the realization of one of his dreams: the establishment of a Methodist College at Passo Fundo. One of the dormitories of the college is named in honor of Miss Mary Decherd, adjunct professor of pure mathematics in the University, who actively sponsored the establishment of the college.

Faculty Community Chest Drive Ends

Contributions to the Community Chest on the University campus had totaled \$2,109 Wednesday, Dr. R. A. Law, University chairman, announced. The drive has ended, but a few more contributions are still being received, he added.

The campaign on the campus has been conducted for the past week by 25 faculty members. Funds received will be used to aid twelve organizations, including the Boy Scouts, the Girl Scouts, and the Y. M. C. A.

ASSEMBLY TO MEET

A meeting of the members of the Students' Assembly has been called for 7:30 o'clock this Thursday night in Main Building 212, Bob Payne, president, announced Wednesday.

The meeting was scheduled to have been held Monday evening, November 11, but was postponed due to the holiday in observance of Armistice Day.

Union Drive Ends Wednesday With \$12,372 in Pledges

The Union drive came to a close at 1 o'clock Wednesday with a total of \$12,372 secured in pledges. Division B secured the greatest amount of pledges, having obtained a total of \$5,022. The team reporting the largest amount of subscriptions was captained by Clara Nelle Tucker. Her team reported a total of \$1,032 pledged.

Franks' Team Leads

The largest amount reported since the last meeting of solicitors was turned in by the team captained by David Franks. He announced \$133 secured since the last luncheon. Total subscriptions secured by all teams since the last meeting amounted to \$862.

Attendance at Wednesday's luncheon was somewhat below the average of attendance at past meetings. Songs and piano solos were given as entertainment for the guests by Florence Weymouth and Janet Sheppard.

Congratulations were extended to the workers by John A. McCurdy, secretary of the Ex-Students' Association. Inclement weather and interruption caused by football games presented a serious handicap to the campaign, said Mr. McCurdy. The showing made by the teams was all the more remarkable in the face of the obstacles they had faced, he pointed out.

Spirit Not Lacking
"The University is somewhat below the scale in loyalty. This is not due to a lack of the proper spirit in the students, but is due to the absence of proper facilities whereby the students may become acquainted," Mr. McCurdy declared. The proposed building will eliminate this condition and provide a means to establish social contacts for the student body, he pointed out.

Plans were discussed at the meeting Wednesday for the freshmen and transfer dance. A tentative date was set for December 13. The dance is yet to be approved by the faculty.

Congratulations were extended to the workers by Ralph Hill, Joe Fisher, and Clara Nelle Tucker and the meeting concluded with all present singing "The Eyes of Texas."

Sigma Delta Chi To Have Banquet

New members of Sigma Delta Chi, men's national honorary and professional journalistic fraternity, will be received into the organization with a banquet to be held at the University Commons, Friday night at 6:30 o'clock. The new members are Glenn Burgess, Ike Moore, and Ayres Compton.

The dinner also will honor Wm. Kay Miller, president, who will attend the national convention of Sigma Delta Chi, which will be held November 18, 19, and 20 at the University of Missouri, Columbia, Mo. Miller will leave for Columbia Saturday.

Phi Delta Gamma Elects Officers

Phi Delta Gamma, honorary and professional forensic fraternity, elected R. J. Bartosh as president and Bill Morrison as secretary at a meeting Monday night.

Plans for the year were discussed by W. O. Moore. The next meeting will be held Wednesday, November 20, at which time the names of prospective new members will be brought up for consideration.

New Members Of Reagan Initiated

Several new members of the Reagan Literary Society will be initiated at the meeting this Thursday afternoon at 5 o'clock in the girls' study hall.

A short business meeting will follow the initiation.

HENDERSON TAKES TRIP

Roy B. Henderson, athletic director of the Interscholastic League Bureau, will go to Granbury this week-end, where he will attend the Hood County teachers' institute and assist in the organization of the Hood County Interscholastic League.

Scene of Story By Crowell Laid On U. of T. Campus

'Shyster' Appears in Recent
Issue of Saturday
Evening Post

"The Shyster," a story by Chester T. Crowell, portraying a typical West Texas ranch boy, who decides to come to the University of Texas and study law, appeared in the last issue of the Saturday Evening Post. Crowell tells of the boy's registration, his hours spent on the campus, and his final decision that the University is not teaching him anything that he does not already know.

Mr. Crowell is a native Texan and in his many periodicals and stories published in various American magazines, he often takes Texas as his theme. "Journalism in Texas" and "Cowboys," published in the American Mercury in 1926, describe Texas ranch life and some of the adventures as a newspaper man in Texas.

Mr. Crowell was managing editor of the Austin Statesman for five years. He then became staff correspondent to the Dallas News, and later a member of the staff of the New York Evening Post. He is now a contributor to the numerous magazines and a member of the Authors' League of America.

Varied Selection Of Books Placed In Main Library

A new treatise on lefthanded people may be found in B. S. Parson's new book, "Lefthandedness," which has been added recently to the University Library. Twenty other new books also were added.

One book of biological importance is D. de Schweinitz's "Growing Up." The author discusses the story of how human beings are born and grow up.

"Selected Articles on Compulsory Automobile Insurance," by E. L. Bowers, includes liability and compensation for personal injury.

A new book on folklore is "Valentine and Orson," by A. Dickson.

Twelve books on literature have been added to the Library; they are as follows: E. D. Starbuck, "A Guide to the Literature for Character Training"; S. P. Sherman, "My Dear Cornelia"; E. Bernbaum, "Anthology of Romanticism"; F. W. Stokoe, "German Influence in the English Romantic Period"; W. A. J. Archbold, "The Romantic Movement in English Literature"; E. S. Buchanan, "Immortal Verse"; J. E. Buckrose, "Down Our Street"; W. Roughhead, "Glenagarry's Way and Other Stories"; Luis de Gorgora y Argote, "Las Soledades"; M. T. Cicero, "On the Commonwealth"; and Helen Eastman Manning's edition of the old French poem of the Thirteenth Century, entitled "La Vie de Saint Thibaut."

Three books on historical subjects were included in the collection; they are as follows: A. Avril, "La France au Montenegro d'apres Vialla de Sommiere et Henri Delarue"; W. Byrd, "William Byrd's Histories of the Dividing Line Betwixt Virginia and North Carolina"; J. A. Swisher, "The American Legion in Iowa."

'Y' PLANS RETREAT

The Y. M. C. A. of A. & M. College is planning a week-end retreat, probably in the nature of a camp, to be held at College Station. The University Y. M. C. A. and Y. W. C. A. members have been invited to join the conference, which will be held November 29, 30, and December 1, following the Thanksgiving football game.

STEER FROG CLASH CALLED BEST OF SEASON

CONFERENCE STANDING					
	P	W	L	T	Pct.
T. C. U.	2	2	0	0	1.000
TEXAS	4	2	0	2	.750
Baylor	2	1	0	1	.750
S. M. U.	2	1	0	1	.750
Arkansas	4	2	2	0	.500
Rice	2	0	2	0	.000
A. & M.	3	0	3	0	.000

The game between the Longhorns and the Frogs Saturday should be one of the prettiest games of the season if the weather is right. The other two conference tilts that were heralded as beautiful offensive games, fizzled away with Texas and S. M. U. going to a scoreless tie that featured a great goal line stand by the Mustangs, and Baylor and Texas slipping and sliding around on a muddy field. T. C. U. and Texas play much the same brand of ball, and Saturday's game will find both teams ready to open up. It will be the first real chance since the Centenary game for Austin fans who miss the out-of-town games to see the Longhorns strut, for the Rice and Baylor games were drab affairs.

There is a possibility that the Steers will provide something for Ripley's "Believe It or Not" this year, for they have a chance to go through the season undefeated and unscathed on, and still not win the conference championship. All that would be necessary for this to happen would be for either Baylor or S. M. U. to win the rest of their games and Texas to keep the Aggies and Frogs away from the final marker. It would be a repetition of the 1923 season, when "Doc" Stewart's "Wonder Team" was undefeated, and still did not win the championship.

The following excerpts from Flem Hall's column in the Fort Worth Star Telegram, give Curtis Beatty quite a hand:

"Jake Wilson, Baylor's candidate for a berth in the all-conference backfield, outplayed Dexter Shelley, but Curtis Beatty, Texas guard, overmatched Bochey Koch's brilliance, organized bally-hoo notwithstanding.

"Boosters in their misguided efforts to win personal fame for their favorite players make determined and rather successful efforts in the press boxes to win credit for their heroes by calling their names on every play.

"Koch played a fine game, according to all reports, but the scouts, who refused to be influenced or confused by the shouted names, thought Beatty did better. None of the backs looked like world beaters, but Wilson out-punted Shelley."

Both Koch and Beatty played bang-up ball in the game, and taking the all-around work of both, it would be hard to distinguish between the two. Beatty is one of the best offensive guards ever to hit the conference, and is a big factor in the air-tight pass defense of the Longhorns. His good spirit and dependability make him a valuable man to Littlefield. Koch is one of the best defensive guards playing football today, although his offensive work and work on pass defense is not up to the standard set by Beatty. It might be added that Beatty, playing right guard, has been pitted against the best guards and tackles that the conference has to offer this season. Hammon and Sanders both played on the left side of the line, Koch played there, and Captain Brumbelow of T. C. U. will be on that side. Against this sort of competition the Texas guard is making a name for himself.

If mention were made of a man who has developed most this season, Frank Cheatham ought to get a hand. The Longhorn end hardly was given a chance to let

Littlefield's Men Work Hard For T. C. U.

When the Horned Frogs of T. C. U. come to Austin Saturday "with their eyes on a conference championship," they will find a squad of Longhorns who have been working for the coming game with more fire and spirit than they have shown at any other time this year, expecting possibly the week preceding the Mustang clash in Dallas. Chilled by a cold Texas "norther" Wednesday, the charges of Littlefield were going through their work with fire and spirit that would do the heart of any coach good, unless he happens to be the mentor of the opposing team.

Francis Schmidt has the same thing to say about the workouts of the Frogs at T. C. U. The Reptiles have the scent of a conference championship in their nostrils, and they are doing all that they can to be ready to crush the mighty Longhorns that bar their way. But the wind is blowing both ways, and the Longhorns have been able to get an occasional whiff of the prize to spur them on, and the Frogs will find the Longhorns primed and ready for the contest.

All in all, the game should be the best of the season as far as the Longhorns are concerned, for with a dry field the powerful offensive clubs will furnish thrill after thrill. But Saturday there will be something besides offensive football shown, for a check up will show that there has been a total of only seven points scored against the two elevens this year. The Aggies spoiled the perfect record of the Frogs when they went across for a touchdown, and then added the extra point, while the Longhorns still boast an uncrossed goal line. Either a third scoreless tie will be chalked up on the conference calendar, or somebody's fine record is going to be spoiled Saturday.

With the exception of Dutch Baumgarten, regular guard, and Claude Meadows, peppy little reserve back, the Steers will present their full strength for the game. Elkins and Gatoura, victims of knee injuries, are back in the midst of practice scrimmage and will be ready to go against the Frogs.

The Frogs have no one on the injured list, although Griffith, full-back who was hurt in the initial game of the season, has not yet fully recovered his old style and effectiveness in hitting the line. ter this year at the beginning of the season, but he has been turning in hard, fighting games since the Oklahoma tilt in Dallas. He is a good pass receiver, and makes a capable substitute for Vining. It is too bad that he does not have another year to wear the Orange.

HORNED FROG VETERANS

These men will do much to spoil the perfect record of the Longhorns, and push across a touchdown in the game here next Saturday. Two of the men, Grubbs and Atkins, have been heralded as all-conference timber. The work of Atkins against Mac Burnett and of Grubbs against Rees will be watched with interest Saturday.

It crackles out loud with crispness!

HAVE YOU discovered the world's crispiest cereal? It's new. It's so crisp that it pops and crackles in the bowl when milk or cream is added.

Kellogg's Rice Krispies are light, golden-brown bubbles that taste like toasted nutmeats. Try them tomorrow. They'll add new enjoyment to your breakfast. Particularly good with fruit or honey added. And Rice Krispies are delicious right out of the package.

Kellogg's

RICE KRISPIES

The most popular cereals served in the dining-rooms of American colleges, eating clubs and fraternities are made by Kellogg in Battle Creek. They include Corn Flakes, All-Brans, Pep Bran Flakes, Wheat Krumbs, and Kellogg's Shredded Whole Wheat Biscuit. Also Kaffee Hag Coffee—the coffee that lets you sleep.

... in bridge it's BIDDING!

... in a cigarette it's TASTE!

"OLD BIRDS are not caught with new nets." What smokers want is not novelty, but quality; not new taste, but good taste.

To millions of smokers, Chesterfield taste is an old story—but it's one they never tire of! For what they want most is exactly what Chesterfield puts first:

Silver Service Given to Watts By Brotherhood

The University Methodist Brotherhood turned their meeting into an all-church night Tuesday night at 7 o'clock. A turkey dinner was served to 150 guests. Mrs. Huron W. Watts was general chairman, and with her committee, she decorated the tables, carrying out the Thanksgiving motif. Claude Pollard, former attorney general, gave a talk on "Hospitality." Frank R. Rundell served as toastmaster. The program was under the direction of George C. Baker.

The chief feature was a "baby show." The surprise feature of the evening was the presentation of a beautiful silver service to the pastor, the Rev. and Mrs. H. B. Watts. The presentation speech was made by Dr. W. A. Felsing, professor of chemistry, in which he told them that the gift was given in a spirit of love and appreciation.

THE Federal Farm Board Tuesday approved a loan of \$2,000,000 to the Texas Farm Bureau Association of Dallas, to be used as advances to the bureau's grower members. The board also approved \$2,000,000 loans to the Alabama Farm Bureau Association to be advanced to its members.
A member of the Conservative party will introduce a bill into Parliament to give British women who marry foreigners the right to retain their nationality. The law also would provide that British women who already have lost their nationality by marriage will regain it unless they make a declaration of alienage.
The second body of the prehistoric rhinoceros to be found in Poland recently was unearthed in the village of Starunia. The body was intact and was excellently preserved.
A new explosive, "penthrinite," has been discovered by a German professor. It is a substitute for nitroglycerine. It is a mixture far safer to handle, has greater explosive force, and is cheaper to manufacture.
The Senate lobby investigating committee presented a letter Tuesday indicating plans for the election of negro Democrats to Congress from St. Louis, Chicago, and New York. The proposal was part of a general plan outlined in documents found in the office of James A. Arnold, vice president of the Southern Tariff Association, to organize a "Southern Republican Council" to hold the gains made by the Republican party in the South in the last election.
President Hoover, in his Armistice Day address, emphasized the proposal that food ships be free from all interference of blockade in time of war. He emphasized America's traditional demand for freedom of the seas.

that it is just the principle that he wanted to clarify.
Dr. Law declared Wednesday night that he did not intend to offer any argument to the faculty in brief of his motion and that he would submit it to a direct vote without discussion.
Dr. H. J. Ettlinger, director of athletics, when questioned concerning his attitude toward the stand taken by the former Athletic Council members, declared that the records were open for public approval and that he could see that they contained nothing that would warrant any action by the faculty.
His report of the athletic department's payroll to the University Controller, Dr. Ettlinger said, showed that 67 students are employed by the department at an average monthly wage of \$16 with the highest salary paid to one student amounting to \$55, earned on a 50 cents per hour wage schedule.
The seven students working in the men's physical training department, whose duty it is to distribute individual property to the students in the department, receive an average monthly wage of \$11, the athletic director declared.
Hillel Club To Issue Paper Each Friday
The first edition of the weekly newspaper to be issued by the Hillel Foundation at the University will be distributed Friday, November 22, and following issues will appear each Friday morning. Every three months a magazine also will be published, Fred Becker, editor-in-chief, announced.
CLUB PLANS TRIPS
Out of the 44 members now in the Girls' Glee Club, 25 girls will be selected to make out-of-town trips and to give town concerts, officers of the club announced. An out-of-town trip will be made every Wednesday for three consecutive weeks. New Braunfels, Bastrop, and Lockhart tentatively have been selected as the points of destination.

SONG FOR THE MORNING AFTER
I learned about women from that one;
She taught me the way of the world,
And now that the happening is over
From my lips are epithets hurled.
She treated me terribly awful;
Her manners had gone on the bum;
Her appreciation was lacking;
And I hope she swallows her gum.
The fact is I didn't expect her
To be so exceedingly great
Because it has been my experience
A blind date is hardly a date.
It's all right for a girl to be snooty,
Or even refuse you a kiss
But with all of my dating and rushing
No date was ever like this.
A girl may be dumb and be home-ly;
A girl may not care for your wine;
But a girl who nudges your spare-ribs
Is not worth a bit of my time.

Fireside Forums
THE plan of the Fireside Forums as get-together meetings has proven successful—successful from a standpoint of interest together with the idea of earnestly listening to somebody who really knows "what it is all about."
It is doubtful that the disinterested and uninformed person pricks up his ears and snaps his heels together when the idea of a Fireside Forum is suggested in his presence. That does not hurt the experiment at all; neither does it hurt the popular student discussion groups that are meeting each week on the campus of the University.
The men who are willing to devote their time and are willing to walk several blocks through the rain, in many instances, are to be congratulated and should receive our expression of appreciation. And besides the most complimentary thing that can be said of them is the fact that they are able to make these forums successful in attendance and interest. When a person can gather a bunch of University boys and keep them listening for an hour, he is to be congratulated.
Arrangements have been made to provide for the attendance of all interested students at these meetings. Students have shown by their attendance and comments a growing interest and it seems that it depends on the leaders of the discussion groups "to keep the ball rolling."
When a somewhat older person attempts to address a group of younger men, he is almost obliged to step back in his age record a few notches and say a few things that he would not ordinarily advocate before his Sunday School class. This idea seems to be a fact and is one of the principal factors that is making the Fireside Forums successful. The discussions represent true and honest convictions coming from men of experience.

GANG FIGHT
Or the Fearsome Racketeers
CHAPTER I—War Is Declared.
Pug Nose Ike, the terror of the Bowery, strode into the Copper Plate Cabaret with a knowing leer on his face. Somebody had been poaching on his liquor preserves and them brandied peaches were his prize stock. He was very angry. In fact, he was in an ugly mood; at least as ugly as his face and that was some.
He slouched over to the corner and stood chucking the cigarette girl under the chin.
"Say, listen here, Fatima. Where's Ham McDuke?"
"He's in the back room, you double fist'd bozo, and take your paws off of Little Red Riding Hood or she'll chew you up, you big, bad wolf!"
Pug Nose continued his march without taking notice of the smutty cracks and knocked at a little green baize door at the end of a dark hall.
"Come!"
The monosyllable rang out like a shot but Pug Nose didn't quail. He pushed open the door with a clatter and stood surveying the room, his hand in his coat pocket clinching something that protruded ominously.
The room was crowded with hard-visaged men who looked like the sort of fellows who live on rat poison and carbolic acid. They hardly showed a flicker of interest.
For a minute Pug Nose stood surveying the group without a flicker of the eye-lash. Then, he strode up to Ham McDuke.

Slides which show cross-sections of various American trees by the use of a thin section of the real wood have been prepared by the visual instruction bureau of the Division of Extension. The trees illustrated are of the exogenous type, or those which show their development by rings or layers.
The slides show the make-up of the wood and the delicate color shading.
Mrs. Charles Joe Moore, chief of the bureau, stated that these are the first slides to be made with real wood. The method is an improvement over the former plan of

Dr. Law declared Wednesday night that he did not intend to offer any argument to the faculty in brief of his motion and that he would submit it to a direct vote without discussion.
Dr. H. J. Ettlinger, director of athletics, when questioned concerning his attitude toward the stand taken by the former Athletic Council members, declared that the records were open for public approval and that he could see that they contained nothing that would warrant any action by the faculty.
His report of the athletic department's payroll to the University Controller, Dr. Ettlinger said, showed that 67 students are employed by the department at an average monthly wage of \$16 with the highest salary paid to one student amounting to \$55, earned on a 50 cents per hour wage schedule.
The seven students working in the men's physical training department, whose duty it is to distribute individual property to the students in the department, receive an average monthly wage of \$11, the athletic director declared.

HANCOCK—Vaudeville—Lita Grey Chaplin, headliner; feature production: "The Drake Case"—Gladys Brockwell. Friday midnight: "Rio Rita"—Bebe Daniels, John Boles.

MAJESTIC—"The Girl from Woolworths"—Alice White, Charles Delaney. Friday midnight: "The Virginian"—Gary Cooper, Mary Brian, Richard Arlen, Walter Huston.

QUEEN—"Welcome Danger"—Harold Lloyd, Barbara Kent. Sunday: "The Return of Sherlock Holmes"—Clive Brook.

TEXAS—"Dangerous Curves"—Clara Bow, Richard Arlen, Kay Francis. Friday: "Four Devils"—Janet Gaynor, Charles Morton.

Reviewed Today

"The Girl from Woolworths"—Little Alice White undresses to her very best brassiere and steps in for the benefit of patrons of "The Girl from Woolworths," now at the Majestic Theater, but she leaves the audience cold, and, as usual in her flippy pictures, it remains for the clever dialogue writer to put into her mouth enough wise cracks and snappy come-backs to get a rise out of the audience. The dialogue writer in this case succeeds as well as usual, and the audience giggles and titters accordingly, so that "The Girl from Woolworths" may be called a success.

The picture delves into the affairs of a young lady who gorges popular songs in a five-and-ten, who falls in love with a subway guard posing as a high hat actor "from the road" while she in turn is posing as a Schubert-Ziegfeld product, who starts a brilliant stage career in some night club or other, and who finally gives everything up so that she can cook pot-roast and beans for the subway guard. There is a lascivious night club manager mixed up in it too. Charles Delaney again acts the part of little Alice's boy friend, and a pain in the neck by the name of Rita Flynn does a god job as the understanding girl friend. Everybody and everything else, including the song and dance routines, are only what might be expected.

"Dangerous Curves"—Adding a few subtitles to a former talking riot does not necessarily make a fine silent picture. This simple fact is more than plainly emphasized in the current production at the Texas Theater starring Clara Bow. Instead of the tense atmosphere and smooth plot construction of the talkie version, we have here an interminable series of close-ups of darling, plump Clara moving her lips and strong, silent Mr. Arlen moving his lips. And in my private opinion, a picture of two or three principals moving their lips is nothing to get weak-kneed over.

Pat Delaney, ably portrayed by Clara Bow, is not the strong, vital character that she was in the talking picture. She is, unfortunately, a rather fat and well made up empty faced puppet. This is unfortunate. "Dangerous Curves" was one of the best of talking pictures. It is one of the slowest and dullest of silent productions.

The subtitle writer did his best with his too copious quantity of lines. Many of them are funny—but it was necessary to put too many of them in to keep up the plot thread. Paramount would have done wisely to stick in a few gang wars and comedy chases—anything to instill a little action here. At the Texas. —bill.

Opening Today

Vaudeville—Lita Grey Chaplin is the stroke of apoplexy with which the vaudeville stuns its patrons this week. It has been rumored that she sings well and is good to look upon—so you'd better see her.

The four other acts which complete the stage unit are "Le-Paul," Swor and Goode in "Two Black Aces," Masters and Grady in "Oh! Harry!" and Alice and Sonny Lamont in their acrobatic stunts—or maybe they sing. I

NOW AT MAJESTIC

Alice White in "The Girl from Woolworths."

The bill this week has variety don't know. in abundance and a notable screen personality. The feature on the screen is an all-talking mystery production, "The Drake Case," with Gladys Brockwell. Sounds plenty good to me. At the Hancock. —bill.

Still Here

"Welcome Danger"—Continuing its triumphant run at the Queen Theater, "Welcome Danger" presents Harold Lloyd in the greatest comedy ever produced—and a superb example of intelligent use of the talking apparatus. From beginning to end the picture is a riot of fun, much of it developing out of advantageous use of the microphone, for good old belly laughs and not just for the rapid purpose of recording a sound. Mr. Lloyd is to be praised for this production, and Manager "Pat" Patterson of the Queen is to be congratulated on booking it for Austin patrons. Don't miss it. —c.b.

Coming

"Rio Rita"—Bebe Daniels and John Boles sing their way through screen history in this production. Adapted from the Ziegfeld musical comedy and produced with a lavish hand, "Rio Rita" should furnish practically perfect screen entertainment.

At the Hancock, beginning with a midnight matinee Friday night and playing through Wednesday. —bill.

"The Virginian"—Friday night at 11:30 o'clock Gary Cooper and his chorus of cowboys will bring "The Virginian" to the audible screen of the Majestic Theater for a midnight preview before starting the scheduled run of four days next Saturday. And much moment is being made of it. Just why this production is anything above the usual program talkie remains to be seen, but where there is smoke there must be some fire; and so it behooves one and all to plan to go get burnt when "The Virginian" strikes town. Besides Mr. Cooper, the picture will

ROGERS TO SPEAK

James Edward Rogers, director of the national physical education service, will be the principal speaker at the eleventh annual Interscholastic League breakfast and section meeting, which will be held in the Crystal Ballroom of the Baker Hotel at Dallas Friday morning, November 9, at 7:45 o'clock.

The section meeting is a semi-annual affair, one being held during the Interscholastic League state meet each year, and one during the meeting of the Texas State Teachers' Association.

Recommendations for new rules, and for changes in the Interscholastic League work are made at the meetings, and discussions are held on the affairs of the league.

It has been the custom of the

Interscholastic League to secure a speaker of national reputation and this year Mr. Rogers has been chosen to make the main address for one of the meetings each year.

Koch and Giles Of Housemothers Speak at Meeting

Psychology Relative To Girls' Problems Discussed

Dr. Helen Koch, professor of educational psychology, and Miss Annie Giles, member of the University Housemothers' Association, were the speakers at a meeting of the University Housemothers' Association at 4 o'clock Wednesday in the girls' study hall.

Dr. Koch spoke on the subject of "Kleptomania." She told the story of a small girl at an orphanage who had the habit of taking whatever she wanted for herself. She was brought, by careful psychological handling, to the realization that there are two better ways of obtaining what one wants. First, by asking for it; second, by earning it.

"You cannot expect to change so-called kleptomaniacs into normal individuals over night," said Dr. Koch to the housemothers. "You must start psychologically to reform the simpler wrong habits growing from this affliction and work up to the higher misdeemeanors."

Miss Giles, in speaking on the subject "Respect for Other People's Property," said: "Most University girls have a high sense of right and wrong with reference to big things, and many are quite conscientious in everything they do, even to little things. Others who would cut off their right hands rather than steal, seem not to see the little things at all."

"Respect for the property of others is one of the earmarks of good breeding and a basis for judging what type of home a girl comes from."

"A careful word spoken by the housemother to all the girls in her house at the beginning of the year is usually sufficient to remind the girls that regard for property of those about them is essential to harmonious group-living. Besides physical property, there are several abstract possessions that each one in any house is entitled to—fair division of space in a double room, privacy when desired, quiet hours for study, and last, but not least, character."

"Each girl should hold her neighbor's character in as high regard as she does her own," Miss Giles declared.

Winnie Harris spent the week-end at her home in Bryan.

Ada Foote spent the week-end at her home in Somerville.

Mary McCullough spent the week-end at her home in Goldthwaite.

Louelle Barnett, former student in the University, visited on the campus during the week-end.

Lucille Robbins spent the week-end at her home in Elgin.

Claire Hamilton spent the week-end at her home in Houston.

Weather Delays Workers on Gym

Work on the new Auditorium-Gymnasium Building has been somewhat delayed the past four days by the continued rains. All steel construction work has been stopped. The bricklayers also have been forced to discontinue work.

At the present time about four feet of water has drained in the transformer room which will have to be pumped out.

Since the steel work has been stopped on the stage, work on the swimming pool cannot continue, because the stage steel must be up before the swimming pool can be completed, construction officials stated.

Approximately 734 tons of steel are being used, nearly 1,250,000 bricks will be put up, and between four and five car loads of roofing tile are en route to Austin.

PERSONALS

Margaret Ciascock of San Antonio, a graduate of the University, spent the week-end at the Phi Mu house.

Eugenia Jakowicz spent the week-end in Port Arthur.

Helen Buckley spent the week-end at her home in Galveston.

Elizabeth McGoldrick visited at her home in Kenedy during the week-end.

Mary Ellen Braly, Phi Mu, is spending the week-end at her home in Troup.

Fellowship Given In History For Third World Trip

First Floating University Carried 31 Students From Texas

A fellowship in history, carrying membership in the third University World Cruise for the second semester voyage around the globe this winter, has been announced by Dr. James L. Lough, founder and president of the student cruise association. The award, which is to be made by a committee of university professors, will include all transportation, tuition, meals, field trips, and sightseeing for the complete University Cruise around the world on board the new Cunard ship, "Letitia."

Seniors, graduate students, and faculty members are eligible for the fellowship which is not competitive. Candidates will be judged on their scholastic records, recommendations from university officials, and personality. No application will be accepted after November 30.

The first world cruise held in 1926-1927 carried 31 students from the state of Texas. Those from the University were Elwood Griscom, who taught public speaking, and the following students:

William Williams, T. H. Williams, Ben Parrish, Polly Barr, Betty Johnson, James Bass, Badger Reed, Nan Williams, and D. C. Reddick, instructor in journalism.

This year is the first time that the cruise has been divided into two parts, making it possible to attend either the first term or the second; however, the history scholarship is offered for second semester.

The students will leave New York December 28. They will proceed to England and travel across Europe to Naples, where they meet the members of the first semester cruise, who are now studying at Old World university towns. The combined party will sail on board the "Letitia" for a three months' cruise through the Eastern Mediterranean, returning to New York, April 17, 1930.

The fellowship, based on the minimum rate for the cruise, carries a value of \$1,450.

LIBRARIANS CHOOSE TEN BEST MAGAZINE ARTICLES

The ten outstanding magazine articles for October as selected by a council of librarians have been posted on the bulletin board in the reading room of the Main Library.

The list of articles includes "What I Believe," by R. A. Millikan in The Forum. Dr. Millikan won the Nobel Prize in physics in 1923.

"High Cost of Hoodlums" by John Gunther in Harper's gives the facts of how Chicago gangs are organized and how they make money, as well as what the market rates for murders are, and what these "rackets" cost the people of Chicago.

"The New Test for British Labor" by H. J. Laski is given in Foreign Affairs. The party's sources of weakness and strength for the "long pull" in British politics are shown, with the moral of the Labor victory pointed out.

"Washington and Sally Fairfax" by J. Corbin in Scribner's tells the story of Washington's love for the wife of one of his neighbors, now revealed for the first time.

"High Wages and Short Jobs" by D. Chamberlin in the Atlantic Monthly recites the experiences of a college graduate who chose to be a carpenter and who tells of the evils of the building trade.

"Why Cheap Labor Down South" by B. Mitchell in Virginia

Margaret Baker of San Saba spent the week-end at the Tri-Delt house.

Emory Camp, Theta Xi, had as his week-end guests at his home in Rockdale, O. F. Jones, Tom Sealy, Loyd King, and Chester Allen, all members of the Theta Xi fraternity.

Whaley Publishes New Bulletin On Fifty Pictures

League Sponsors Contest In Art Appreciation This Year

"Fifty Famous Pictures," is the title of a new Interscholastic League bulletin by Thelma Whaley. The bulletin has just been issued for the benefit of contestants in the league's new picture memory contest.

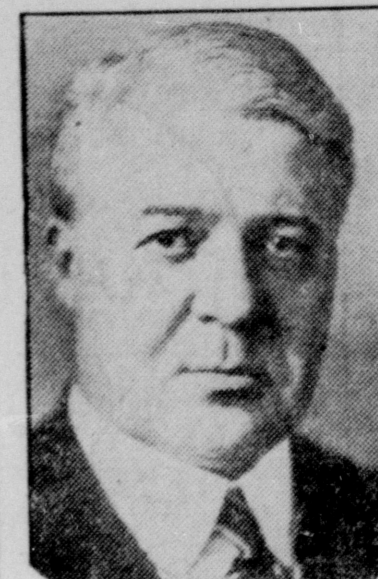

The bulletin contains a historical sketch of the pictures used in the contest, as well as a biographical sketch of the artists.

The bulletin is being distributed to member schools for 15 cents a copy, or 10 cents a copy in lots of twelve or more.

The picture memory contest is a new contest in the Interscholastic League program. The contest is open only to pupils in the grade schools, and is intended to stimulate interest in the masterpieces of art.

Stewart to Attend Fort Worth Meet.

Dr. Frank Mann Stewart, professor of government in the University, is planning to attend the annual convention of the International City Manager's Association of the United States and Canada, which is to be held in Fort Worth, November 20-23.

The city manager system, according to Dr. Stewart, is a system whereby the city council elects a man to run the city. He appoints all department heads, and has also the power of removing them. He, in turn, may be removed by the city council. In the cases of cities not having this city manager system, the mayor with the city council, or a city commission, performs the duties of running the city.

The city manager system, said Dr. Stewart, is being viewed with increasing favor.

Adam Johnson, city manager of Austin, also will attend the convention, said Dr. Stewart. Mr. Johnson is on the convention program.

Julia Bird Jones spent the week-end in Temple.

All in a day's work for telephone men

A specimen of construction work in the Bell System is the new catenary span carrying telephone wires across the Gila River, Arizona. The "natural" obstacle is no longer an obstacle while there are telephone men to find a way through it or over it.

This is but one example in a general ex-

pansion program. Others are such widely varied projects as linking New York to Atlanta by cable, erecting 200 telephone buildings in 1929, developing a \$15,000,000 factory at Baltimore.

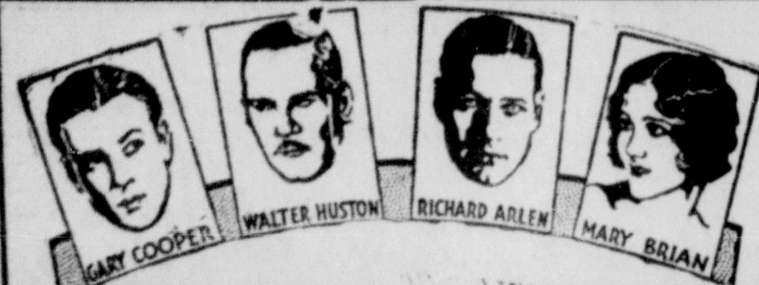

The telephone habit is growing apace, and the Bell System will continue to keep a step ahead of the needs of the nation.
