AUSTIN, TEX.

AMONG THOSE IN SCHOOL

By Emilio Van Zandt.

Doris Faulk of Brownsville, is in the University summer school. Miss Faulk attended C. I. A. for two years, and will teach in the Brownsville schools next year, having taught near her home last year.

Lydia Martin, Baylor College graduate, who taught school at her home in Angleton last year, is taking work on her Master's Degree in the summer school. She expects to teach the coming school term.

J. Maurice Dysart of Clarksville, formerly of Austin College and Oklahoma University, is attending summer school, and will be in the University next fall. While at the University, he is a member of Sigma Alpha Epsilon.

Rush Week

Activities Planned

On September 17 rush week, with all of its excitement, will give the freshmen their first impression of the University and of Austin. The new girls will be winned, and dined and fêted extensively for a week before the opening of school. Each sorority has selected to assume the leadership in its rushing activities for the fall.

ECONOMIC GEOLOGY BUREAU INVESTIGATES TEXAS

Dr. W. R. Blocker, who has been in the University for the past two years, is in summer school, having been in attendance at the University for the past two long and short sessions. Miller spent his freshman year at Rice Institute. After receiving his degree, he will tour Colorado before returning to his home in Sugarland to engage in business.

Carroll Miller will receive his degree in Business Administration at the close of summer school, having been in attendance at the University for the past two long and short sessions. Miller spent his freshman year at Rice Institute. After receiving his degree, he will tour Colorado before returning to his home in Sugarland to engage in business.

E. H. Thomas, whose home is near Mart, is in the second term of summer school and taking work in the Education Department, preparatory to teaching commercial work in Alexander High School, of Louisiana. Thomas received his academic degree from the University in 1920, and in '21 the Master of Business Administration degree.

W. R. Blocker of San Marcos, who taught in the "prep" department of Clarendon College the past two years, is in summer school and will receive his Bachelor of Arts degree with this month's graduating class; he also has the larger part of his Master's work in history off. Blocker formerly taught in the Texas City schools, and will return to that place as principal next year. He has attended San Marcos Normal College for two years, and while there was center on the basketball team.

Two Master of Arts degrees will be conferred in the same family next August when Mr. and Mrs. Jack Johnson of Denton receive their diplomas. Mr. Johnson, who is a graduate with a Bachelor of Arts degree in 1918, teaches in the Dallas schools. While in school he was chairman of the Students' Council in 1918-19, and since leaving the campus, he has served the University by his work in the Thirty-fourth Legislature.

Mrs. Johnson received her B.A. two years after her husband had been awarded a degree. She has been teaching in the North Texas Teachers' College and will return there to teach again next year.

White and Thalheimer Lose To California Champions Fight To Get To Semi-Finals

Win Over Member of French Davis Cup Team

Lewis N. White and Louis Thalheimer, University of Texas national intercollegiate champions, playing at Chestnut Hills, Brookline, Massachusetts, eliminated a strong team Tuesday from the national doubles play, when they defeated Harry Johnson of Boston and Irving Weinstein of San Francisco at 3-6, 8-6, 6-3, 6-4.

The victory of the Longhorn stars over the Johnson-Weinstein combination came in the third round. In the first round the Texans won out in the struggle over the formidable team of Jacques Brugon.

Dr. J. S. Simonds of the University geology faculty, left Austin yesterday with his daughter, for a visit to California.

George Jackson has resigned his position with the Ex-Students Association, and will enter the cotton business at Giddings.

Howard Marshall of Granview, student in the Journalism Department last long session, is visiting on the campus.

R. S. Baker is in Canada. Payne he is camping.

INSTALL PHONES ON CAMPUS SOON

Work Will Begin on University Branch Exchange Within Ten Days

Work on the branch telephone exchange for the University campus will begin within ten days, J. W. Ezzell, Austin manager of the Southwest Bell Telephone Company announced yesterday. The branch will have 11 stations on the campus connected through a switchboard with the city exchange.

Engines of the University recently completed the planning of the routes for the cables, and they have been ordered. The switchboard is being made in Dallas and will be here by September 1. The switchboard will be located in a room in the Main Building, on the stairs.

The branch exchange, which was authorized by the Board of Regents this summer, will double the number of stations on the campus and will lessen the expense and trouble of local calls. The operator will be connected with the downtown office by ten cables. The University will then have a single number, and the operator will connect caller with the office desired.

German Che Goods For the University Arrive at Galveston

W. B. Duncan, who been away on his vacation, arrived Austin today, in order to be ready when a shipment of chemicals material arrives at the Chemistry building.

Mr. Duncan has received notice that a shipment of goods arrived at Galveston and is now to be sent to the Chemistry department.

BASEBALL N TAKE EAST DURING

AL VALUE OF With Y. PROPERTY

The total value of all University property is more than \$13,000,000, according to a report of the State Board of Control.

Property in the estimated value of the University, the main University, the delivery branch at Galveston, the school of Mines at El Paso, and the University land.

BUTLER SPEAKS IN CHAPEL THIS WEEK

English Lecturer Will Discuss Famous Hymns of the Church in Talks

Dr. Pearce Butler, lecturer in English in the summer session, will have charge of the regular chapel exercises next week.

Beginning Tuesday morning, he will talk on the famous hymns of the church, and continue them in chronological order throughout the week. He plans to tell something of the author of each hymn with the idea of showing the importance of both the author and the hymn as aids to religious devotion.

Y.M.C.A. Cabinet Will Hold Summer Outing Camp in September

The Y. M. C. A. cabinet is planning its annual cabinet retreat, for September 17, 18, 19, at which time the members of the cabinet intend to go to Professor Pearce's ranch, a few miles up the river, and map out the program for the work of the coming year. The cabinet is composed of twelve men, students of the University, and is selected annually.

Dad Burnett has sent word to Bloc Smith that he and his gang will be on hand on the 17th, ready for a good outing, and anxious to make the coming Y. M. C. A. year the best yet. The cabinet has appointed a committee to meet the trains, and conduct the new students to the school and acquaint them with the surroundings, as is done each year by the Y. M. C. A.

About 225 of 269 Applicants Will Get Degrees Says Dean

A list of all candidates who have applied for degrees at the end of summer school has been assembled and is almost ready for publication. The total number of candidates of all departments is 269.

Dean Taylor predicts that there will be about 225 of this number that will be awarded degrees on Saturday, August 30. The diplomas are all prepared and it is too late to withdraw the application.

Dr. Gray to Speak at Education Meet

Dr. Clarence Truman Gray, associate professor of the philosophy of education, will speak at the regular meeting of the Education Association Tuesday evening at 6:15. The meeting will be held at the cafeteria.

Frank Wright will be the principal entertainer on the musical program, and will sing several folk songs.

The cafeteria will serve dinner to the members.

PROXIMATE COST CHEM BUILDING

"aven" Subject of Payne's Talk Monday

IRON WARRIORS TO ANSWER CALL SEPTEMBER 10

HARD SCHEDULE FOR LONGHORNS

Phillips, Florida, and Southern Methodist University Meet Texas

1924 SCHEDULE

Southwestern, Sept. 24, Austin.
Phillips U., Oct. 4, Austin.
Howard Payne, Oct. 11, Austin.
S. M. U., Oct. 13, Dallas.
Florida U., Oct. 25, Austin.
Rice, Nov. 1, Houston.
T. C. U., Nov. 8, Fort Worth.
Texas A. & M., Nov. 27, Austin.

Sixty of Varsity's most capable gridiron warriors are expected to be present for roll call on Clark Field when Coach E. J. "Doc" Stewart opens the training season on September 10. From this array "Doleful Doc," with the assistance of Ed Bluestein, line coach, will have to select the squad of twenty-five or thirty warriors for the opening of the playing season.

Texas University's chance for another conference championship are slim indeed, according to all who are acquainted with the situation. The schedule for the 1924 season is one of the most formidable in years, and the material from which a team must be molded is the least formidable in years. Other conference teams will experience their worst trouble in selecting an eleven from among experienced, capable men. Only one letter-man, Captain Jim Marley, will return to the Longhorn squad. The remainder will have to be taken from the rank and file of last year's weak reserve, from an inexperienced team of freshmen, or from a Shorthorn squad that lost over half of its games.

Backfield Weak
The Texas backfield will be built around Captain Marley. This stalwart star is best at line plunging when the ball rests on the opponent's five-yard line. "Gentleman Jim" is also the best defensive player in the Steer backfield. Last year Marley played at fullback, but this season he may be shifted to quarter as the Longhorn line-up lacks a good general.

In an article in The Texan several

(Continued on page Four)

EXAMINATION SCHEDULE

SECOND TERM, 1924

SENIOR EXAMINATIONS

In order that the deans may have an opportunity to receive senior grades and certify the candidates for degrees, it has been decided that all candidates for degrees this summer shall take their examinations beginning Tuesday, August 26, at 8 a. m., according to the following plan:

Examinations scheduled for Friday, August 29, shall be taken Tuesday, August 26, Group V coming in the morning and Group VI in the afternoon. Examinations scheduled for Saturday, August 30, shall be taken Wednesday, August 27, Group II coming in the morning and Group I in the afternoon.

Examinations scheduled for Thursday, August 28, shall remain as scheduled below (Groups III and IV).

All candidates for degrees this summer are required to take their examinations as explained above, and none other than candidates for degrees will be allowed to take their examinations in advance of the regular examination dates.

All senior examinations coming on Tuesday and Wednesday, as outlined above, will be held in W. Hall 4. Each instructor will arrange to give his examinations and gather up his papers.

GROUP III

Thursday, August 28, at 8
Anthropology 202: Ed. B. 206
Business Administration 23c: Ed. B. 302
Chemistry I and 107 (1/2 and c): K. Hall 5

Civil Engineering 32b: Eng. B. 102
Economics 1c.1: M. B. 105
Economics 12a: Ed. B. 207
Education 1b.1: Ed. B. 312
Education 5a: Ed. B. 307
Education 127: Ed. B. 204

(Continued on page 4)

Senior Invitations Have Arrived; May Be Obtained in M.B.

Senior invitations have arrived and are now being distributed by Joe Steiner in the Main Building. Seniors may get their invitations by calling there or seeing Steiner in person.

The first shipment arrived Saturday morning. The Star Engraving Company rushed the order so that the invitations arrived several days before they were expected. One hundred extra invitations were ordered, and most of these have already been sold.

All orders not called for in three days will be sold, and no money will be returned, Steiner stated.

ANNOUNCE PLANS FOR GRADUATION

Seniors to March in Processions to Sermon and Commencement Exercises

Seniors will march in the customary processions to the graduating exercises, Dr. A. A. Bennett announced yesterday.

The order of march in the processions will be the traditional one of long standing in the University, with the graduate school leading the way, followed by the Law, Business Administration, Engineering, and Academic students.

The procession will form on the west walk of the Main Building at 7:30 o'clock. The students will not be arranged in alphabetical order, according to Dr. Bennett. The services will be informal. In case of inclement weather, the graduating students will assemble in the basement of the University Baptist Church. The services will be held in the auditorium at 8 p. m.

This plan will be followed for both the sermon and the commencement exercises, Saturday night.

One Manuscript of Garcia Library Is Worth \$100,000

In the collection of books and manuscripts which the University purchased three years ago from the estate of the late Genaro Garcia, a noted scholar of the City of Mexico, there was recently discovered a dinged, scarred booklet, the written pages of which are made of the fiber of the maguey plant.

This ancient manuscript was written by a member of the invading force of Spaniards under Hernandez Cortez more than 400 years ago. It is declared by bibliographers that this manuscript alone has a value of more than \$100,000 which is the sum that was paid by the University for the entire library. Upon the pages of the handmade booklet are several crude drawings in crayon. The Spanish in which the account is written is of so old a form that only an expert linguist will be able to decipher it.

Berry Studies Austin Geologic Formations

E. W. Berry, Jr., of Johns Hopkins University, son of Dr. E. W. Berry, Sr., of the same institution, has been engaged as assistant in the subsurface laboratory of the Bureau of Economic Geology and Technology for the last three months. Berry is specializing in the same science as his father and is also interested in subsurface research work. He has made a special study, during the last few weeks of the geological formations in the vicinity of Austin.

ESTIMATE MADE BY DR. FELSING OF THE CHEM DEPARTMENT

Basis Estimate on Amount Required to Build Bio- logy Structure

\$2,000,000 EXPENDED

Dormitories, Stadium, Biology and Class Room Building Under Construction

The approximate cost of the new chemistry building will be between \$400,000 and \$450,000, according to estimates by E. J. Mathews, registrar, and W. A. Felsing, head of the chemistry department.

While the Board of Regents has not authorized the new building, the Board has realized the need of a new structure for the chemistry department, and has instructed the architect to prepare plans to submit to the Board at some future date, said Mr. Mathews. The architect was also instructed to draw up plans for an addition to the library.

Dr. W. A. Felsing estimated that \$450,000 would be required to give the chemistry department a properly equipped building which would contain the necessary apparatus to handle the increase in number of students registering for chemistry.

"I am basing my estimate on the cost of the new Biology Building now under construction," said Dr. Felsing.

When actual work starts on the Chemistry Building more than \$2,000,000 worth of new buildings will be under construction on the campus, or will have been completed. The structures are: Biology Building, \$400,000; Stadium, \$500,000; Methodist Dormitory, \$100,000; Littlefield Memorial Dormitory, \$250,000; classroom building, \$400,000, and Chemistry Building, \$450,000.

AUGUST ALCALDE IS OFF PRESS

Reviews Whole Proposition of Selecting President for University

The leading article in the August number of the Alcalde, the monthly publication of the Ex-Students' Association that is just off the press, is a review of the whole proposition of selecting a president for the University, including the official minutes of the June meeting of the Ex-Students' Association.

Minutes of Meetings
The article starts with the joint conference held between the executive council of the Ex-Students and the Board of Regents, held in regard to the selection of a president, and ends with the election of Dr. Spilwain to the presidency.

One of the most interesting features of the number is a discussion of the progress of the Stadium to date, including a picture of the Stadium as it now is, and several pages of excerpts from letters written to the Stadium committee. Also there is a statement by L. Theo Bellmont of the arrangement made for the distribution of tickets for the Thanksgiving game to subscribers to the Stadium.

Stadium Article
An article on Thornton Rogers Sampson, D.D., LL.D., in whose memory his son, F. W. Sampson, of Atlanta, Ga., has given \$5,000 to the Ex-Students' Association, sketches the life of the old-time Texan, who has been of such a beneficial influence to the University.

STUDENTS WANT DRISKILL HALL TO REMAIN

Miss Star McDaniel, a University student, appeared before Austin's Business and Professional Women's Club this week and requested that Driskill Hall not be torn down to make room for the new dormitory. The student body of the University feels the same way concerning the Austin landmark.

The Texan does not propose to tell the University building committee what to do, but joins with the students in protesting against the removal of the buildings. Driskill Hall is still in good condition, and it looks like extravagance and waste to destroy the building. As Miss McDaniel said, the home could be made into a club house or to serve some other useful purpose.

There is a great deal of sentiment attached to the Driskill home, and for this reason, too, the Texan hopes the hall will not be removed. The place is one of Austin's landmarks, a monument to other days.

THE GREAT AMERICAN AMBITION

The Baltimore Free Press calls attention to the fact— which must be inspiring to many of us—that all the great men do not become presidents; that, in fact, most of our great presidents became great after they got in office—having very little to recommend them when chosen as candidates. That paper says: "Every American male baby is regarded at some time or other by his proud parents and his equally proud immediate relatives as a potential president of the United States. Not every American, when he reaches years of discretion, craves the office; but an appreciable number have in the backs of their heads a secret feeling that, if the fates were kind, they would make as good presidents as do most of those who are chosen. Many wonder if it would not be greater honor to send down their names to posterity with that noble company which includes Hamilton, Clay, Calhoun, Webster, Blaine, Root, Lodge, and a hundred others whose services and whose honor were a thousand times those of any but the greatest presidents. "It is practically impossible today to belong to the company of the truly great and at the same time to aspire successfully to the presidency. All the 'great' presidents since Andrew Jackson have achieved their greatness after election to the presidency if we except Roosevelt, who was a political accident from the standpoint of those who tried to sidetrack him in the vice presidency. If Lincoln, Cleveland, or Wilson had been nationally recognized as really big men before their nominations they could never have been nominated in all probability. That is hitting the nail on the head. Politics has become such

a treacherous and uncertain game that it is difficult to get the men best qualified for public service to become candidates for office. Most of our positions of responsibility are thankless jobs. If a public official can ride the fence successfully he can draw his pay for two or more terms, but if he is vigorous, ambitious and active in his zeal to accomplish good, and makes a few blunders the public turns upon him in wrath and turns him out. Tenure of office depends, of course, much upon the ability and tact (political acumen) of the office-holder, but it also depends much upon the whims of the public. Somebody can start the talk that we need a change and the voters will march en masse to the polls to put new officials in power. In proof of this, witness the republican successes four years ago, when the battle cry was, "We need a change." Uncle Sam got a change in officials and some of them got a lot of his change, and the world goes merrily on. As a result, with a few notable exceptions, most of our able business men are content to attend to their business and let the politicians and seekers of easy jobs run the affairs of State.

—Temple Telegram.

LIBRARY ASSISTANT DESERVES SUPPORT

The assistant in the University library who maintains order and quiet in the building, deserves the support and co-operation of the students.

At a minimum cost the library enables us to read the best of books on every subject. It is a privilege to have access to the library, for if we had to buy the books we read there, our education would be almost prohibitive.

If a student does not want to study himself, it is his duty to permit others to study. We have the privilege of studying ourselves, but we do not have the privilege of enfringing upon the rights of others.

The library assistant is not a policeman; at least, he should not have to be a policeman to maintain quiet. When he asks us to be quiet, he makes the request only for the welfare of the students as a whole. We should not feel ill toward him for performing his duty. The fault lies with us.

The library is one of the University's greatest assets, and it is our duty to guard it for our own benefit. The library assistant deserves the co-operation of the student body in maintaining a quiet and peaceful room for study.

OFFICIAL NOTICES

Candidates for the degrees of Master of Arts and Master of Business Administration are not required to present themselves in any special regalia, such as cap and gown. They are at liberty to dress themselves as

The new girls will be wined, and dined and feted extensively for a week before the opening of school. Each sorority has selected to assume the leadership in its rushing activities for the fall.

ECONOMIC GEOLOGY BUREAU INVESTIGATES TEXAS FIELDS

In the matter of attracting attention to the undeveloped resources of the State, the Bureau of Economic Geology and Technology of the University, has already accomplished wonderful results, as is shown by the review of the activities of the bureau made by Dr. J. A. Udden, director.

"The educational work of this division consists in the first place of discovering and describing the scientific facts of importance in connection with the study of geology in our schools. The State is very rich in the geological phenomena that it presents to the scientists, but only a beginning has so far been made in the study of these phenomena.

"Only a few bulletins have so far been issued on paleontology. The same statement can be made with regard to the study of petrography and mineralogy. Before we shall have ac-

Schedule to In
With Some
Schools

The University of Texas baseball team, which has won so far at once, will be present Saturday morning, September 20. President W. M. W. Splawn will deliver the welcome address to the new students, and other speakers at the convocation on Saturday will be Dean W. S. Sutton, Registrar E. J. Matthews, Dean T. J. Taylor, Dean B. F. Pittenger, S. E. Dyer, president of the Students' Association; and Ed L. Gossett, chairman of the Men's Council.

Freshman Sunday
Sunday, September 21, will be Freshman Sunday in all University churches. Monday, September 22, will be Registration Day for freshmen, and those registering after that date will have to pay a late fee of \$3.

On Tuesday morning there will be a convocation of all freshmen boys, and in the afternoon there will be a convocation of all freshmen girls. The speakers will be L. T. Bellmont, dean of the College of Physical Activities; Dr. H. Y. Benedict, dean of the College of Arts and Sciences; Dr. H. T. Parlin, junior dean of the College of Arts and Sciences; L. H. Hubbard, dean of students; Miss Anna Hiss, director of physical activities for women; Miss Lucy J. Newton, dean of women.

Theatricals

By Shirley Lomax

THEATER CALENDAR

Monday, Tuesday, Wednesday
Hancock: "Poisoned Paradise," starring Clara Bow and Kenneth Harlan.

Queen: "Shooting of Dan McGrew," with Barbara La Marr and Lew Cody.

"Shooting of Dan McGrew"
Playing at Queen

Monday at the Hancock will be a picture of so unusual a plot and so excellent a treatment, that it is hard to reduce it to the ordinary critical formulas. That production is "Poisoned Paradise," the latest release by Preferred Pictures Corporation. In respect to story, direction, settings and acting we do not hesitate to place this new B. P. Schulberg production among the choicest offerings of the current season. The basis for this splendid photoplay is Robert W. Service's novel, "Poisoned Paradise" and we venture to say that in all the masterpieces of writing which this widely read author has given us, none has approached this thrilling tale of Monte Carlo in exciting incidents or finely drawn character portrayals. Superb Settings From the opening views of the Monacan principality rising in majesty from the sea, the picture is charged with beauty. There are many exterior shots, positively they are breath-taking in their magnificence. And in addition to these, the art director spared no pains to supply lovely sets of his own invention. But in pointing out the producer's achievements in making "Poisoned Paradise," a picture to charm the eye, let us not forget the story which as something entirely new. Against the fascinating background of the tables where human happiness is recklessly staked on the whirling roulette wheel, there unfolds a love story of two young people—an English artist and a little Parisian milliner—who find themselves unconsciously tossed by fate into the very midst of an intrigue upon which hangs the existence of the famous resort.

THE DAILY TEXAN

jestly from the sea, the picture is charged with beauty. There are many exterior shots, positively they are breath-taking in their magnificence. And in addition to these, the art director spared no pains to supply lovely sets of his own invention. But in pointing out the producer's achievements in making "Poisoned Paradise," a picture to charm the eye, let us not forget the story which as something entirely new. Against the fascinating background of the tables where human happiness is recklessly staked on the whirling roulette wheel, there unfolds a love story of two young people—an English artist and a little Parisian milliner—who find themselves unconsciously tossed by fate into the very midst of an intrigue upon which hangs the existence of the famous resort.

Hancock Presents "Poisoned Paradise"

He's English, and handsome, and a leading man whose performance of Mark Sabre in "If Winter Comes" established him as an actor of outstanding ability. Now, of course, you recognize him for Percy Marmont, and he again registers strongly in "The Shooting of Dan McGrew," the Metro-SL picture now showing at

Percy Marmont in "The Shooting of Dan McGrew," a version of Robert W. Service's poem. This Sawyer-Lubin production was directed by Clarence Badger under the supervision of Arthur H. Sawyer.

WIM AT

Barton Springs

The coolest and most sanitary swimming place in the South. Drive out early in the morning or late at night—you will be refreshed and the hot summer days will seem shorter and more pleasant.

BARTON SPRINGS

Owned and Operated by the City of Austin

WHY IS THE DRISKILL SO BUSY?

Because the bulk of our business comes from old customers who know and appreciate high grade work and service—they bring us new customers. It is our desire to please you. Phone 6444.

DRISKILL HOTEL LAUNDRY

Summer School Students

You are as much a part of this University as English 1.

You want to get in on the biggest thing the students of this school will ever attempt.

Watch Texas Memorial Stadium grow—a memorial to Texas men and women who offered their all.

Then sign the pledge card mailed you and enroll with the hosts of loyal sons and daughters who are building this monument to Texas Fight Spirit.

No one will judge your loyalty by the amount you subscribe; but everyone will be interested in knowing that you did subscribe.

VARSITY ELIMINATED DAVIS CALIFORNIANS DEFEAT TEXANS

Kinsey Brothers Win 6-2, 6-3, 6-4 in Recent Newport Meet

Lewis White and Louis Thalheimer, University of Texas tennis players who captured the National Intercollegiate doubles title, were eliminated in the semi-finals of the Davis Cup tryouts, at Newport, by the Kinsey brothers, 6-2, 6-3, 6-4.

The superior playing of the veteran Californians proved too much for the younger players, and the masterful teamwork and tactics withstood the attacks of the collegians. The tournament is being held at the Casino Park, Newport, R. I.

DR. BUTTE NOW TOURING EUROPE

George Butte Jr. Now Student at Pembroke College, Oxford

Friends of Dr. George C. Butte, Sr., dean of the School of Law of the University, have received word from him that he is having a very enjoyable stay in Europe. He visited France and Spain and then went to England for a stay of a few weeks.

At last accounts he was about to return to the continent for another tour. His son, George Butte Jr., who is with him, has matriculated at Pembroke College, Oxford. The young man obtained his Bachelor of Arts degree from the University of Texas and last year taught in the high school at Bremond.

60 WARRIORS TRAIN

(Continued from page 1)

days ago, Tom Dennis, captain of the Orange and White for the 1922 season, is quoted as saying that the man to fill Oscar Eckhardt's shoes is C. W. "Blue" Smith of Cleburne. Smith can run and kick, but his weakness on the defense must be considered. "Blue" played in several of last year's games and the lineup for the present season is sure to find him in either right or left half-back position.

Schuhardt Returns

Vernon Schuhardt, who was a member of the team of 1923 will be in uniform on September 10. Vernon will probably try to be a running mate of Smith at halfback. Frosh Ramsey of San Marcos, who played with the Greenhorns in 1923 will also be out for half. K. L. Berry, who played under the Orange and White colors in 1921, will be another former gridster to return for fall practice.

Two men who were on the sidelines last season due to injuries will answer "present" on opening day. "Mat" Newell, lanky end, who may try for center this season, is one of them. "Bud" Sprague, the fighting tackle, who suffered a broken leg in 1923, is the other.

Frosh Squad Contributes

Last year's frosh eleven will send up Johnson and Slover at ends, Sewell, Penny and Greer at tackle, Hall, Homan and Henne at guard, Rundell at center, Wright at half, and Williamson at full. The Short-horns will offer Collins and Hart at end, Furman and Manley at tackle, Cunningham and Springer at guard, Grooms at center, and Pratt at half.

The most formidable opponent of the Longhorns at present is Baylor. Many of last year's Bears will be back in their moleskins, and their cub eleven will amply fill all other vacancies. S. M. U. is not doped to have the super-squad of last year, but the Mustangs will do their part in an endeavor to lasso the Steers from a conference championship. Florida is certain to give the best there is in them on October 25. The Aggies scrap, which will open the stadium, will be the hardest fought affair on the entire schedule.

Campus Has the Cafeteria in

The best equipped cafeteria in the South is said to be that of the University Commons, otherwise known as the "caf."

Here hundreds of hungry students are fed three times a day from a kitchen sanitary and modern in every way. Many of the best informed persons in the country have complimented the University upon the cafeteria kitchen and its equipment, according to Miss Anna Jansen, manager.

The electrical equipment includes a bread mixer, a meat chopping machine, a machine used to whip cream, mayonnaise, and to perform other similar aids to cooking, a potato masher, a potato peler, and coffee grinder, a dish washing machine.

Miss Jansen received her M.A. degree from the University of Chicago and is specially trained in institutional management. In addition to her work as manager of the Cafeteria, she is instructor in institutional cookery, one of the courses given by the Department of Home Economics.
