

July 11, 1962

Dr. R. Lagaaif  
Schout Bij Nacht  
Doormanlaan 46  
Wassenaar  
Netherlands

Dear Dr. Lagaaif:

The enclosed photograph and negative is a copy of the front cover of the journal "Science", vol. 136, no. 3522, June 29, 1962. Perhaps you are interested in this bryozoan. It was published just a few days ago.

There is going to be at Bordeaux, France, a stratigraphic convention "Premier Colloque International de Stratigraphie du Paleogene" in August and September, 1962. This colloquium is organized by the Comite Francais de Stratigraphie. All inquiries should go to Mr. le Professeur Vigneaux, Laboratoire de Geologie, Faculte des Sciences, 351 Cours de la Liberation, Talence (Gironde) France. Are you my any chance going there? I intend to go on my own expense, using my vacation time, because this meeting concerns my specialty and may be very important. It would be very good, if you were there too. As you know I need someone to help me a little off and on, and my daughter cannot go with me this time.

With warmest regards,

Sincerely,

H. B. Stenzel
