

CARNEGIE INSTITUTION OF WASHINGTON

Geophysical Laboratory

2801 UPTON STREET, WASHINGTON 8, D. C.

March 15, 1951.

Dr. Henry B. Stenzel  
Bureau of Economic Geology  
University of Texas  
Austin 12, Texas

Dear Dr. Stenzel:

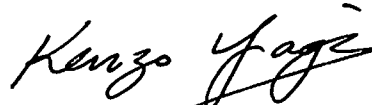

I am a Professor of Petrology at the Tohoku University of Japan, and have been working in this Laboratory since last June as a visiting investigator.

I heard from my colleague, R. Imaizumi, Assistant Professor of Geology, that you are the only one, now actively participated in the study of fossil crabs in this country. Imaizumi is also studying the same subjects, and has much interest in your work. Therefore he will be very glad to have your reprints on the subject. His address is as follows:

R. Imaizumi  
1st. College of Arts and Science  
Tohoku University  
Tomizawa, Sendai  
Japan.

Your courtesies will be most sincerely appreciated.

Yours very sincerely,

Kenzo Yagi
