

4/23/54

Dear Henryk:

So the die is cast. I hope everything works out to your liking at Houston Oh. It would be fun to be with you but no school can stand too many "old" men.

I wouldn't worry about Cronis. His selection was a big disappointment to me. The sooner he vacates the chairmanship, the better. The guy's a politician in my book.

On the other hand I think you are a pretty tough guy too.

Had your services at Texas were appreciated.

I am pleased you can keep Sonya close for a while longer. Your girls have brains.

Seems like there were some nice subdivisions opening in the Houston Oh. area. But I don't know that part of town.

Hope your title clears up. Maybe Title Insurance is a good buy. Didn't get it in Houston, but did here. It's a protection.

Suppose the girls have an interest in the house. We each have wills.

I fear my days of Lodo only are over. I have to work over the Cret.-Eoc. of the Santa Ana Mts. It will be cream skinning, but I regret losing the time.

MS on pt. 2 of 2000 in from Washington. This time they constrained themselves. They removed the which for that & I must say proportionally, not proportionately. All of which I think is foolishness but doesn't disturb me.

The study may not be good, but it will be thick. That's what counts, isn't it.

No one in Houston clamored for my services so I had better be a good boy.

By Sept., I hope sooner, the office address will be

M. S. S. S.
4 Homewood Place
Menlo Park, Calif.

Hoping you and the girls make a pleasant transition

As ever,
Merle
