July 2-1946-

Dear Mr Steyer-

I believe your friend that I mean
may be on this way in the
early part of July and would
give me a ring -

I deeply hope that your trip will
be delayed until near the middle
of the month - Due to continued
rains it will be impossible to
look at the days that I told
you of - Also my brother, who
is also interested in this sort of
thing - days, etc is now in Washington
and will not return for a week or

ten days - I think you two
would enjoy a visit together.
If you do find it convenient to
come about that time, be sure
and call on me - If you have
not been to Garrison, where there
is a large brick plant. David
will be happy to go up there
with you - the best fine bricks
in the state used to be made there.

Sincerely

Marquette Fairchild
