Dr. H. B. Stenzel,
Bureau of Economic Geology,
Austin, Texas.

Dear Dr. Stenzel:

Please accept the thanks of the San Antonio Study Group for the fine talk you gave us on the Eocene unconformities. The lengthy discussion that followed the talk is still in progress among the members of the Group. From now on you will be a marked man and you may expect to be fired on (with questions) anytime you meet one of us.

On Friday night I will be in Austin with Dr. Hammond for the talk he will make to the ~~S. A. S. G. Study Group~~ ~~S. A. S. G. Study Group~~. I have written Dr. Sellards about getting speakers from the Bureau and hope to see him then. Am looking forward also to seeing you again.

Again let me express our thanks to you for the fine talk.

Yours very truly,

Phil Morey

P. S. Morey.
