

# Memo

Institute for Research in the Humanities

FROM Emmett

DATE 23 September 1991

TO Leslie

RE The nice calendars which UT puts out

The UWisconsin also puts out calendars, but larger, and not at all as convenient as the UT ones. How about slipping Tom one of the 1991-92 (if the supply has not already been used up), with instructions that he slip it to me in Rome?

I know I'm supposed to be nostalgic only about Madison, and a few other places, but every once in a while I do find that there was something really nice about Austin in one or the other of my recent visits. At any rate it's about time to start thinking about when I come back again. I hope you'll be there when I do.

Will all of these come out in the right spots on this memo form? *Closer than I expected. I didn't do any measuring*

*Many greetings, and thanks in advance, even if there aren't any*
