Dr. H. B. Stenzel
3726 Colquitt
Houston, Texas

Dear Dr. Stenzel ;

We are all much relieved to learn that you are "on the mend" and hope you are really feeling much better.

Publication 5704 was delivered to us by the Printing Division on February 14 but we thought we would delay sending copy to you until you felt more like looking through it. By separate mail we have sent a couple of copies to the Department of Geology address and hope you will be pleased with the completed job. Twining seems happy with it; we have also send Krause a few copies for his company officials.

When you feel up to it and want to make a list of recipients, we can do the mailing out from here if you desire. As you may remember, we really have no stated number of authors' separates but will do what we can along that line.

With very best wishes for speedy and complete recovery from all of us at the Bureau,

Very truly yours,

JOHN T. LONSDALE
Director

JTL:MJC

*Best wishes -
Josephine*
