

SWEET

January 22, 1963

Professor Walter C. Sweet  
Department of Geology  
Ohio State University  
125 South Oval Drive  
Columbus 10, Ohio

Dear Dr. Sweet:

Please accept my thanks for the copies of "Octamevella, new generic name..." and "jovellania Bayle....". These nomenclatural questions are unfortunate. They use up our energies when we should use them for more productive work. We all have the same troubles. As it is I am preparing a very similar request for Drepanites Benett.

Best wishes.

Sincerely yours,

H. B. Stenzel
