Dear Stenzel —

I am sorry to learn that both boondoggles fell through. I am surely glad I didn't sit around depending on any of it. I expect to go over to N.O. the first week in June & try to line up a place to live and then come back to settle up things and finish packing and get the moving started. Any way I hope that I can find a house. Necessity may force some changes in plans.

Keep me posted on that missⁱⁿissippi business. I would like to see that Oligocene-Miocene, Chickasaw business first hand with men that have been over the ground.

I wrote to Camp a few days ago renouncing any further interest and putting in a good word for you. I really doubt if Chamy has anything to do with the business. I feel that Camp will pass my letter on to the committee.

Earl
