Seminar: Community Engagement in Research: The Key to Longitudinal Study Success

presented by the Community ENgaged Texas Research ALliance, a UT Austin Grand Challenge

Talk Title: **Community Engagement in Research: The Key to Longitudinal Study Success**

June 6, 2018 at 9:30am

SEA 3.250

Speaker: **Amy Elliott**

Chief Clinical Research Officer

Avera Research Institute Center for Pediatric & Community Research

Amy Elliott leads a research team – with offices in Sioux Falls, Pine Ridge and Rapid City, SD – focused on improving child health and development through community-based research. She is the principal investigator on several National Institutes of Health (NIH) research projects including the Environmental Influences on Child Health Outcomes (ECHO) Study, an initiative to reduce infant mortality in American Indian communities, and the Safe Passage study examining environmental influences on child health outcomes.

We hope that you will join us!
