July 4, 1931

Prof. H. B. Stenzel

Agricultural & Mechanical College,

College Station, Texas.

Dear Prof. Stenzel:

Your letter received. For particulars pertaining to the new organization - "American Malacological Union", write to the Secretary Mrs. Harold R. Robertson, Buffalo Society of Natural Science, Buffalo, N.Y. I am not the Treas. as stated in Science. I will send you a copy of the Minutes in a few days giving an account of the meeting.

I practically gave up the study of the Terrestrial Mollusca on coming to Boston, 28 years ago.

I shall never forget the pleasant time I had collecting fossils in Texas in the fall of 1895. Singley was with me at Giddings and Smithville and Kennedy joined us at Austin.

Yours sincerely
Chas. W. Johnson
