Dr. H. B. Stenzel  
Bureau of Economic Geology  
The University of Texas  
Austin, Texas

Dear Stenzel:

So far as I am concerned, you can use the two letters as you wish. It occurred to me that, since I am now a member of the A.A.P.G. Post-Cretaceous Sub-Committee, perhaps I shouldn't be the origin of a lot of arguments. However, I suppose it doesn't matter.

I'm afraid I can't work up a Wilcox paper for the Monterrey meeting, or any other in the near future. There is so much exploration going on that I have my hands full. I am enclosing a copy of my letter to Mr. Storm concerning the Monterrey affair.

I think you will enjoy the trip, particularly the structural geology to be seen in Las Cortinas Canyon.

Very truly yours,

J. B. Garrett
