AIR MAIL

Dr. C. Barker Jørgensen  
Zoophysiological Laboratory  
University of Copenhagen  
Copenhagen, Denmark

Dear Sir:

With reference to your publication "Efficiency of growth in *Mytilus edulis* etc." (Nature, vol. 170, p. 714, 1952), have you done similar work on the oysters? Perhaps you know of some pertinent publications on oysters?

I have been much occupied with various aspects of fossil and living oysters and am now trying to summarize some of the available data.

Very truly yours,

H. B. Stenzel
