Pre-Fredericksburg stratigraphy  
in Caldwell and Guadalupe Counties

J.B.Dorr

Please find enclosed sample descriptions of wells in Caldwell and Guadalupe counties for which you asked recently. This material is all that is available at the Bureau. The Bureau has also quite a collection of samples from these wells:

Kelley No. 1 from 2120, 7103, and 7240 feet depth

Tiller No. 2 from 5696 to 7483

Tabor No. 8 from 2105 to 4996

Seiderman from 2524-27, 2535-56, 2950, 2767, 2802, 2930,  
and 2950.

Should need any of these samples please let me know and I shall send them to you.
