Dear Dr. Stenzel:

We were happy to get
your recent letter and to learn that
things are still going strong in
Austin. The unfortunate death of
Mrs. Plummer was quite a blow—
she was a fine friend indeed. I
know that you will miss her a
great deal.

Remore have come
fast & furious about Stanford.

Lev is on leave for $1\frac{1}{2}$ years
and Water goes on leave for a
year or so in June. Whether
they return or not is beyond me.

As for Li's leaving that is
news for we have heard nothing
about it. As far as I know
he is not intending to leave or
go on leave.

There is a possibility that
Lev might return for a quarter
each year. He sold his home
here & bought in Tulsa as you
probably know.
