Dr. H. R. Aldrich, Secretary
Geological Society of America
419 West 117th Street
New York 27, New York

Dear Sir:

It has come to my attention that List 17 of candidates for election as Fellows of your Society lists Stewart Hamilton Ross as Professor of Geology, University of Houston. Dr. Ross has not been connected with the University of Houston since June 1, 1954, and we should sincerely regret having the Fellows of the Society consider Dr. Ross' candidacy when a misrepresentation had been made concerning his status.

We would be happy if you could see your way clear to send out a correction of your list, so that members of your Society will not gain a false impression.

Sincerely yours,

R. Balfour Daniels
Dean
College of Arts and Sciences
