Mr. James E. Allen
c/o Allen's Blue Print & Supply Co.
415 Johnston Street
Alexandria, Louisiana 71301

Dear Mr. Allen:

Congratulations! You found some Belemnites, which in my years of collecting I have not been able to find. You must be a whiz.

In describing those new Sepiidae you have scooped me. I had collected them for years for a larger paper. Now you have described them ahead of me. I don't mind it at all. After all, I may never get to do it.

My geology class is going to go through Alexandria to Burkeville, Texas, on Saturday the 12th. We will stay overnight somewhere in Texas and return Sunday. You are invited to go with us, if you feel like it. We leave here Saturday at 8 a.m.

Thank you for the reprint of your paper.

Sincerely yours,

H. B. Stenzel
Visiting Professor
Geology
