LONGHORNS TRAIN TO BLOCK TACTICS OF WILY SOONERS

Team Leaves Friday Noon for Dallas. Probable Lineup of Both Teams Announced.

By Otis Miller.

The Longhorns have been going through strenuous training this week, and will continue to do so until the day of departure for Dallas. Tuesday evening the Varsity squad scrimmaged with the Shorthorns and were unable to score on them. Yesterday afternoon the second scrimmage of the week was indulged in, and with this evening's tussle the last scrimmage of the week, preparatory to the big game, will be over with.

This week the men have been trained in the ways of meeting the attack of the enemy. The coaches were not satisfied with the tackling as exhibited in the Pirate game, and have been devoting special attention to this phase of the game. The scrimmages have been used to develop a better style of offensive play. A number of new plays have been given the team, and the perfection of these and the old plays already in use has been thoroughly wrought out. As a result of this painstaking drill, the squad is showing wonderful improvement in their handling of the forward pass, in end runs, in tackling and in blocking. A number of the men have been kept out of the scrimmages in order to eliminate all possible chance of having several good men out of the game on account of injuries received in this way.

There will, in all probability, be changes in the lineup of Saturday's game, when the Longhorns range themselves opposite the Sooners. The first line of defense will see changes at the two ends. Graves will no doubt work at left end. At right end Moore and Baldwin are having a merry set-to for the winning of this post of honor. Big Smythe and Waits are waging a lively battle for the full-back position. The rest of the positions on the team seem to be pretty well settled, but time may bring yet further changes. Before the season closes, Waits may be working at half with big Smythe at full and Pete Smith working on the other wing. The game with the Sooners may bring out the latest football ability of some heretofore unheralded star. Any player who knows how to muck up and frustrate the open style game will have an added chance to distinguish himself.

Oklahoma has always been a stickler for the open style game, and her playing this year has been no exception to the rule. Forward passes and end runs are Oklahoma's hobby. Against Illinois she used a triple pass, two backward passes and one forward, which in three trials carried the ball to Illinois' five-yard line. Coach Juneau has been working the Texas defense to meet this style of play. The fact that the Sooners are strong for the open style game is probably proof that their line will be no stronger than Texas' line. This will give the Longhorns a chance to use the style of play which worked so effectively against the Sooners last year—that of through tackle plays. Oklahoma has a fast back field and ends, that from their record so far this year, are experts in flanking the enemy for frequent and formidable gains.

The Longhorns will leave for Dallas Friday at noon, arriving in time for a light workout in the evening at Fair Park. Coach Juneau will carry twenty-five men with him. A list of these men will be published in Friday's Texan. The sale of reserve seat tickets will close tonight, so that all desiring reserve seats had better arrange for same before that time. Rooters' tickets will be available to the last, but the chance of getting a good seat will be slim if one waits until the rally Friday night, or until on the train leaving for Dallas. Make your reservations now and help swell the crowd of merry students that will leave dull care for a day or two and back the team to another victory over the crafty Oklahoma Sooners.

The probable lineup of the two teams follows:

Texas—	Oklahoma—
Graves	Johnson
Greer	Tolbert
Green	Deacon
Left End.	
Left Tackle.	

(Continued on page 4.)

FROSH ELECTION THIS AFTERNOON

Officers for Full Term to be Chosen. E. J. Mathews to Address Freshmen.

The annual Freshman election will take place this afternoon in the Law auditorium at 3 o'clock. This is an event of great importance, and every first-year student is expected to be present. All officers for the fall term, including president, vice-president, secretary, treasurer, and sergeant-at-arms, will be elected. The meeting will be presided over by V. P. Lee, president of the Students' Association. The Freshmen will be addressed by E. J. Mathews, University Registrar, on the subject, "Wills and Willows."

GERMAN FRIDAY

Weekly Social Event Held Earlier to Accommodate Rooters for Dallas Game.

The weekly German will be held on Friday night this week instead of on Saturday night, as is the custom. The music will begin a half an hour earlier than usual, so that all of the girls' boarding houses will have to serve supper a little ahead of time in order that the co-eds will have the required two hours in which to get ready.

These changes from the usual habit are occasioned by the desire on the part of a number of students to attend the German before leaving for Dallas to see the football game with the Oklahoma Sooners in that city.

There may not be the quality of jazz music that was heard at K. C. Hall last Saturday night, but the enthusiasm over the prospective trip on the part of the co-eds and the hilarious prospect from the eds' point of view of being in Dallas on the "last day" ought to fill the crowd with pep.

CAP AND GOWN SOCIETY FOSTERS VARSITY TRADITIONS

The Cap and Gown, the Senior girls' club in the University, was organized during the winter term of 1915, under the influence and guidance of Miss Katherine E. White. Miss Selma Streit was its first president.

The club grew out of the feeling among the Senior girls that the University needed some hold for its girls in a social way. It was to foster traditions and make traditions for those girls who took their degrees from Texas. To pass these traditions to each successive Senior class, and to give a deeper Varsity spirit to the next class the system of spring initiation was instituted. All the girls in the University who expected to be Seniors the following year were asked to join this sorority and were properly impressed with the club and its traditions by their initiation.

This year the Cap and Gown is expected to do many things in the way of bringing the Senior girls together, and bringing about a spirit of unity and co-operation for our institution.

MANY ENGINEERS ARE INSTRUCTORS IN AERONAUTICS

Twenty-three Engineers serve as instructors in the Aviation School. The men now in service in the School of Military Aeronautics include Ernest Baker, S. R. Beecroft, W. E. Berkeley, C. H. Brooks, James Douglas, L. C. Hutcheson, R. H. Jackson, F. B. Johnson, E. J. Juul, Raymond Lipscomb, Geo. M. Merrill, D. E. Park, P. V. Pennybacker, J. W. Ramsay, E. F. Ries, W. A. Smith, S. M. Udden, L. B. Walker, Joe E. Ward, J. P. Wear, C. B. Williams, R. H. Wilmet, A. W. von Struve.

The above list of men are all Upperclassmen, and in most cases would have been Juniors and Seniors this year. However, Parks, Merrill, and Douglas received their degrees last year, and Ries the year previous.

When one of the men was asked for information in regard to the School of Aviation, he refused to have anything further to say about it. However, the number of men in the school indicates that new men are taking the places of those who finish. The old Blind Institute is still being remodelled, and nothing seems to be lacking to take care of the student aviators.

"PEP" TO FEATURE OKLAHOMA RALLY TOMORROW NIGHT

Judge J. W. Brady and Dean H. Y. Benedict to Speak—Band and Glee Club on Program.

Boom. The Oklahoma football game will be won tomorrow night. The time is 7:30 and the field of combat will be the new Men's Gym.

Judge J. W. Brady, '91, ex-president of the Students' Association, master gunner, will fire the first shot. It is confidently predicted that this missile will make the foundation-stones of the Sooner stronghold, and send Benny Owen's braves trembling from Dallas.

Judge Brady will be followed by Texas' "Benny," who, though not a football coach, is the "Old Man's" only rival for the position of "all time" pep man. What Judge Brady can't say, Dean Benedict can, and he has been saving up all year for this special occasion. Frosh are invited to come and get acquainted. It might stand them in good stead later.

Yell Leader Bill Collins and his assistants, recognizing that the atmosphere may become too thick, have arranged for the band and Glee Club to give a few choice classics, including "It's a Long, Long Trail" and "He's a Hell of a Fellow" to clear things up now and then. The yell dispensers will be in jazz uniform.

Barring a spectacular leap from the window, to hide his modesty, Billie Trabue is expected to tell what he is going to do the Sooners. The speakers' stand has been especially reinforced to accommodate "Fats" Conley, who will tonight make his oratorical debut.

All students can't go to Dallas with the team, but 99.99 per cent of them should be at the rally and see what things will be like at the Fair.

H. E. DEPT. WILL REPRESENTED AT TEXAS STATE FAIR

The Home Economics Department of the University of Texas is represented at the Dallas Fair this year by Miss Lawrence and Miss Cook, who have charge of this department's share and will give demonstrations of the Home Economics work. Miss Gearing, who, in connection with Mrs. Pennybacker, has been put on the advisory board of the Texas division of the Federal Food Conservation, has called a meeting at Dallas during the Fair of the advisory committee, which consists of representatives of women's organizations in Texas.

Miss Francis, from the University of California, who has been here about two weeks, has gone to Dallas to take up the work of food conservation. She will remain there permanently.

DR. MORRIS IN THE EAST.

Dr. F. E. Morris, who was instructor in the School of English last year, is now teaching Philosophy in Connecticut College. This is one of the leading preparatory schools for girls in the East, and is located at New London, Conn.

ASHBEL SOCIETY MEETS.

The Ashbel Literary Society met yesterday afternoon and discussed further plans for the year. It was decided to give the dues this year to the University branch of the Red Cross, and further co-operation in Red Cross work is now being planned. Miss Margaret Myrick is to give a history of the Red Cross Society at the next Ashbel meeting, which is to be held on Wednesday afternoon, October 31.

20 ENGINEERS ARE APPLICANTS FOR DEGREE THIS YEAR

War, Drought, and Political Disturbances Combined Cause Decrease in Candidates for Degrees.

Following students have made applications for Engineering degrees this year:

Emil Zuhlke, Wm. W. Brennan, J. M. Callicutt, S. Cardenas, J. L. Gaddberry, Armour T. Granger, G. T. Hays, G. M. Hillyer, Thomas A. Hodges, Miss H. Hornsby, L. C. Hutchison, M. L. Jones, W. H. Martin, L. A. Mosse, M. C. Nichols, Curt L. Oheim, C. L. Orr, Richard Vander Stratten, Wm. Joseph Weeg, Robert L. Wirtz.

There are twenty candidates this year as compared with forty last year.

The first cause of the decrease is the war. This department has doubled and tripled its pro rata of men for service in the present war, and in very few cases have any of these men been turned down. They seem to make their courses much easier than students from other departments, on account of their special training.

The second reason for the decrease is the drought, that extends all over Texas. A large portion of Engineers come from the farm, and hence, when no crops were raised, they find it convenient to do something else rather than go to school.

The third reason is the political disturbance, which was at least no boost for any department. At this critical time, when men were making preparation to go off to school, some people did not know whether or not the University students, as well as the faculty, were going to take a vacation this year.

The fourth cause was the other schools taking advantage of the situation and making an extra canvass for students.

SCRIBBLERS MEET

Miss Marion Hawkins Unanimously Chosen Vice-President—Several Interesting Papers Read.

At the monthly meeting of Scribblers, held last Tuesday night in the Ashbel Room, Marion Hawkins was unanimously elected vice-president to fill the vacancy caused by the absence this year of Miss Dorothy Hirschfield.

A rare treat was enjoyed when Dr. Killis Campbell read to the club a paper on "The Clash of the Cities With Respect to Poe's Poetry." This essay forms a part of the introduction to Dr. Campbell's editions of The Poems of Edgar Allen Poe, recently published by Ginn & Co.

The other numbers on the program were an interesting roud of poems by Miss Hilda Norman and an essay on "The Defense Mechanisms of Lord Byron," by Mrs. Dora Neill Raymond.

SENIOR CO-EDS TO APPEAR IN CLASS REGALIA

With the meeting of the Cap and Gown Club tonight the Senior co-eds are expected to appear on Tuesdays and Fridays attired in caps and gowns, and with a new form of Senior dignity. On the campus, in the Library, and in class rooms, these black-gowned ladies will be seen. It is expected that every Senior girl will appear in the prescribed regalia, for the vigilance committee has suggested many unheard-of punishments for neglect of this duty.

The girls who were not initiated last spring into Cap and Gown mysteries will soon have the opportunity of joining. It is expected that the club will have a larger enrollment this year than in many previous years.

PROSPECTS BRIGHT FOR SHORTHORNS

First Game Will be Played Monday Afternoon on Clark Field With Ambulance Company.

The first game of the season finds the Shorthorns stamping impatiently on their range. For the past three weeks the Shorthorns, composed of scrubs and ineligible, have been practicing daily on Clark Field. The squad was started with ineligible and late tryouts, and has been enlarged by unfortunates from the first squad. Twenty-five men are now being instructed daily in the science of football, under the tutelage of Hebe Goodman, an old Varsity man. He is assisted by "Rats" Watson, who was quarterback on the famous Second Texas Infantry eleven, and who will hold down the same position on the Shorthorn team.

The first game of the season will be staged Monday afternoon, October 22, at 3 o'clock sharp. The expected victims of the Clark Field slaughter will be Ambulance Company No. 3 from Camp Travis. Little or no dope can be obtained on the jitney team, but a very interesting performance is expected to be shown to the football fans when the Shorthorns make their debut.

A game has also been arranged with the Huntsville Normal at Huntsville. The date has not been definitely set, but the game will be played some time in November. Mr. Roy B. Henderson is in correspondence with several other teams, however, and the Shorthorns expect to have a full schedule.

Hopes run high in Shorthorndom, as the team rounds more and more into shape. The weakest point of attack is the line, which is very light. Coach Goodman is giving linemen special instruction, however, to let them make up in skill what they lack in weight. The backfield is as strong as could be desired, with several old heads to perform. The twenty-five men are divided into two teams, and run through signal practice every day, usually ending with a light scrimmage. Thursday of last week the Shorthorns had an initial clash with the Longhorns, and the older and more experienced team ran up three touchdowns. Scrimmage has now become a regular thing, and Tuesday, in a stiff fight, the Longhorns tasted defeat in the form of a 3 to 0 score. The Shorthorns are now expected to give their heifer brethren stiff fights almost every afternoon.

There are several men whom Coach Juneau envies Hebe Goodman more than a little. "Rats" Watson unquestionably appeared as a star to all who saw him play last year. Ferguson, a transfer from Trinity, is a speedy man, whose educated toe makes defensive backs "back up." Jackson of Rice is another ineligible of whom much is expected. There are other men out who are ineligible on account of being transfers, who would probably otherwise be on the first squad. "Bib" Falk and Tatum were declared ineligible on account of low grades last spring. Both of these men would have been on the first squad, and now have berths reserved on the Shorthorns. With this material for a nucleus, nobody is afraid of what the season may bring the Shorthorns.

EX-STUDENTS IN ARMY INTERESTED IN VARSITY AFFAIRS

When Uncle Sam opened his recruiting stations last spring, a great number of prominent University students answered the call and enlisted in the training camps. That their love for their alma mater has not diminished, is shown by the number of subscribers to The Daily Texan which have come from the various army camps.

Those who have The Daily Texan regularly are grouped as follows: From Camp Travis, Lieuts. Jas. R. Beverley, R. D. Cox, Jno. M. Ferguson, D. I. Francis, Roy E. Hawk, L. W. Landrum, F. B. Walker, C. A. Donaldson, Bertram Hedick, and Capt. Geo. Peddy; from Linda Vista Clarence Lohman, Lieut. Roy D. Priest; from Houston, Lieut. Jno. K. Weber; Capt. E. F. McFadden of Camp Pike, Arizona; Lieut. Raymond Myers of Nogales, Arizona; B. V. Baucom of Camp Funston, Lieut. A. G. Uhl of San Antonio.

ENROLLMENT TO DATE REACHES TOTAL OF 1748

Registration Shows Decrease of 687 Over Same Period Last Year. Great Increase Expected.

The total enrollment of the University of Texas up to date is 1748, as compared to 2435, which was the enrollment for October 17, 1916, a loss of only 687 in face of the war, which took such a large number of Varsity students; the drouth conditios over the western part of the State, and the former internal affairs of the University. At the end of the registration period, which includes the first four days at the opening of the session, 1916 the enrollment was 2237, which shows that by this date one year ago there had been a gain of 198 students, while the enrollment this year at the end of registration was 1571, showing the gain in students up to date to be 178. This gain is only 20 students less than for the same period last year. Of the total number of students, 1571 enrolled at the end of registration period for 1917, 1307 (575 men and 732 women) were in the College of Arts, 119 (110 men and 9 women) in the Law Department, against about 300 in the same department at the beginning of 1916, and 145 (137 men and 233 women) were in the Engineering Department, compared to approximately 233 enrolled in this department at the same time last year.

Last year's student body was 61.9 per cent men and 38.1 per cent women. At the end of registration week this year 52.3 per cent of matriculants were men and 47.7 per cent women. It is thus clear that while a large number of young men have entered the military service, the men still have a "controlling interest" in the institution. In the time since registration, the proportion of men has increased. Of the 1571 students matriculating during the first four days, 897 were old students, while 674 had never attended a regular session. Of the latter figure, 192 were college transfers and 482 entered from High Schools.

The total gain of students from September 30, 1916, to the close of the spring session, 1917, was 390. Ninety-six of this number registered in January, 1917. However, a larger registration than ever before for January is expected at the opening of 1918, since it is estimated that a large number of prospective students waited to see the fact verified that Varsity will be "same as ever," and even "better than ever," this year. With this expected jump in enrollment for the opening of the year 1918, there is a large probability that the discrepancy between the enrollment figures for last year and this will be very much lessened.

NEW ENGLISH INSTRUCTOR.

Mr. Louis J. Heath from the University of Pittsburg has recently been appointed an instructor in the School of English. Mr. Heath will teach English 1. He has been the Registrar in the University of Pittsburg for several years, but has always been interested in the subject of English.

PREXY TO SPEAK IN SANTONE.

President Vinson, who has been out of the city for a short trip, is expected to return today from Taylor, where he has just given an address. Dr. Vinson will go to San Antonio Wednesday, October 24, to make a patriotic address at Kelley Field.

SEWING MACHINES WANTED.

Several sewing machines are wanted to carry on the Red Cross work to be taken up this next week by the University branch of Red Cross. An appeal in therefore made to anyone who has a machine not being used to lend that sewing machine to Red Cross. Miss Davidson will be in her office from 9 to 1 every day (telephone number 1140) to receive offers.

THE DAILY TEXAN

The Student Daily Publication of the University of Texas.

Published every morning except Monday during the college year.

Entered as second-class matter at the Postoffice at Austin, Texas, under the Act of Congress, March 3, 1879. Subscription price \$2.50 per year—provided for each student through the Student Activity fee.

OUR DALLAS OFFSPRING.

Mechanically perfect in make-up, and full of interesting news of the exhibits and activities of the Fair as well as items from the campus, the first issue of The Dallas Daily Texan has reached the desk of the temporary editor.

It is the initial attempt of The Texan, or any other collegiate paper, for that matter, to publish two simultaneous issues. It is the initial attempt to "transfer its energies to a foreign soil."

The success of The Texan, judged purely from the standpoint of advertising, was assured before the project was ever undertaken, but since the publication is now a reality, and its actual value to the University realized, it seems probable that The Dallas Daily Texan will appear as regularly as does the State Fair, and will prove as great an asset to that institution that it represents as does the annual Fair to the State and city where it is held.

A NEW SPIRIT.

Next to the University booth in the Educational Building in Dallas there is an exhibit of grains, soils, guns and machinery which is presided over by several cadets, and these cadets are from a small school town near Bryan. The University of Texas and the Agricultural and Mechanical College are adjoining each other as to booths at the State Fair of Texas, and the proximity of the exhibits is only significant of the common interests which each of them shares.

There was a day when a Varsity student was supposed to keep both eyes open and one hand on his hip for any A. & M. cadet which he might meet in the course of a day's events. And the uniformed man took the same precaution and was always ready to dodge a brick slanted by a University partisan. It was this spirit that wrecked athletic competition between the two schools for several years; the same spirit handicapped both institutions in every line—school work, extension and athletics.

"Them was the days," say the old-timers, and we can add that we are joyous that they "were" rather than "are." Today there is a different feeling existing between the two student bodies—a spirit cordial and co-operative in every respect. It is the

stuff that makes both schools, rather than the one that happens to be on top, prosper and enjoy the good will of all the people of the State rather than a mere handful.

If there is any doubt that the new kindred feeling has grown up in a night, we invite you to come to the Educational Building. Against the far wall you will see the two schools lined up side by side—and strange to say, there are no bar-wire entanglements between the two. There are guns in one booth, but the muzzles are pointed in another direction rather than in ours. We have linotype metal pigs, but we never cast them to the north. We are the best of neighbors. Visit us and see.—Dallas Daily Texan.

WITH THE MEDICS

By L. K. Boswell and Pat Nunn.

Attempt to Revive Honor System.

On April 16th, 1917, after several weeks of heated controversy over a case of student misconduct, the faculty accepted the ultimatum delivered by the students, and declared the Honor System inoperative and indefinitely suspended. It was a hard blow to student self-government, and every thinking student felt the sting. As it was the Senior class which pushed the issue and forced the faculty to take the firm, but just and authoritative stand, no action could be contemplated until after the graduation of this class.

Saturday, October 13, 1917, President Stubblefield of the Students' Association called a meeting of the student body, for the purpose of taking steps and formulating plans whereby it might regain that jewel of self-government, which hasty and thoughtless action had snatched from it. At the appointed hour, a quorum was lacking, and no action could be taken. Apparently the world's series baseball game was a bigger drawing card. It is to be hoped that another mass meeting will be called in the near future, and that an Honor System commensurate with a University of the highest rank will be re-established and diligently guarded.

Fresh Elect Officers.

The following officers were elected by the Freshman class:

President, A. L. McMurray; vice-president, J. S. Dimmitt; secretary-treasurer, Miss Margaret Bryson. Assembly representative, P. M. Nunn; reporter to Medical, T. H. Brownrigg. It is to be noted that each and every officer selected is a product of the Main University.

Phi Alpha Sigma Pledges.

The Phi Alpha Sigma Fraternity announces the pledging of the following:

Allan L. McMurray, Cuero; T. H. Brownrigg, Marshall; E. T. Smith, Waxahachie; Sinks McLarty, Crockett.

Slight Decrease in Enrollment.

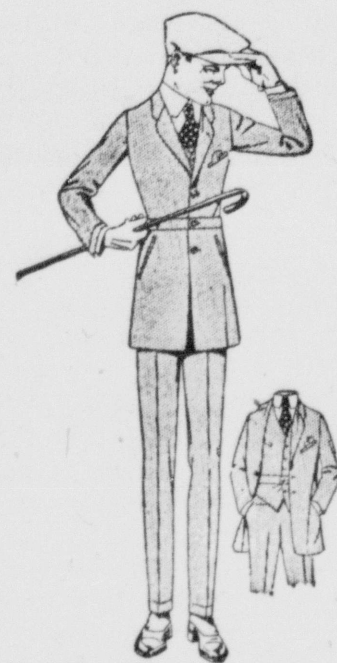

Considering the ten-course no-condition admission requirements going into effect in the Medical Department of the University for the first time this year, many predicted a very slight attendance for that department. But in spite of the political unrest during the summer, and the operation of the selective draft act, we have 53 students less than last year. Most of this loss is felt in the Freshman class, there being forty this year as compared to almost one hundred last year. The second, third, and fourth-year students who are drafted may continue their medical courses by being transferred to the enlisted Reserve Corps. Many of them experienced difficulties in obtaining their transfers early, and have been dropping in by twos and threes since the opening of the session. The enrollment to date in medicine and pharmacy totals 251, in medicine alone, 200. Included in this number are 10 co-eds.

Four Join Reserve Corps.

Four more students, who had been drafted for military service, were

Ties That Won't Wrinkle

It's a shame to buy a good looking tie, beautiful pattern, and all that, and then, after you've worn it two or three times, have it wrinkle up or pull out of shape. Our new non-wrinkle ties won't do this; they've got a new patented lining that prevents it. Lots of beautiful ties \$1.00

CO-ED INTRAMURAL
ATHLETICS TO BEGIN
ABOUT JANUARY 15

Intramurals in co-ed athletics will not start until the middle of January. Each girl who is eligible for a team must get in at least six practices before Christmas. She must pay her association dues before January 10, if she wants to get in the game. To be eligible for a "T" she must pay her dues before November 1.

The two strongest teams are the Freshman and the Sophomore teams. While the Soph team has the advantage of having so many old members back, yet the Freshmen have turned out in large numbers, and many good players from high schools throughout the State have enlisted in the University ranks.

Miss Irene Hearn, the captain of this year's Soph team, is coaching one section, while Miss Eunice Aden has charge of the other.

The co-eds will hold their first rally Thursday night in the Woman's Gym at 7:15. This is to be a big, peppy rally, and every girl in the University is urged to come. There will be some funny and interesting stunts.

Miss Della Lawrence is social chairman of the association, and promises a lively time to everybody.

Refreshments will be served. The tennis tournament will start next week, and if any girls want to sign up, they must do so this week. Any girl is eligible who belongs to the association and pays her tennis dues.

The walking squad will go out to the Gym Cabin on Lake Austin next Thursday afternoon at 3, and from the Cabin will blaze trails in the vicinity and start the work on the rock fences.

The swimming girls will also meet at the lake on Thursday to try out for "T's."

The indoor baseball girls are playing, but as yet have not organized into teams. At first the girls were slow about signing up for this sport, but now the rush seems general, and more than thirty girls are playing baseball now.

SOCIETY

Miss Gladys Rose, a Senior Academic from Stamford, Texas, has received an assistantship in the Department of Philosophy and Psychology.

Miss Eunice Aden is going to Dallas, and will remain over Monday to hear Mr. Hart, a Y. M. C. A. worker, on war conditions and Y. M. C. A. work at the front.

Misses Louise Carlton and Tilda Foster went to Taylor today to attend the wedding of Miss Alice Ya-key. Miss Ya-key is a former student of the University and a member of the Alpha Delta Pi Sorority.

Miss Bess Houston of Floresville is visiting Miss Fanny Fae Witter of Austin. Miss Houston is a former student at the University and a member of the Chi Omega Sorority.

The Panhellenic tea will be given at the Chi Omega House Friday afternoon, from 5 to 6.

Mr. and Mrs. F. E. Guess of Fort Worth spent the day in Teusday with University friends.

The following men were initiated by Phi Kappa Psi on October 14: Frazier Moss, Austin; Jeff Neely, Amarillo; Henry Hoskins, Gonzales; Travis Long, Carthage; C. Barrow, Covington; Charlie Van Zandt, Granger; Hosea Collier, Waco.

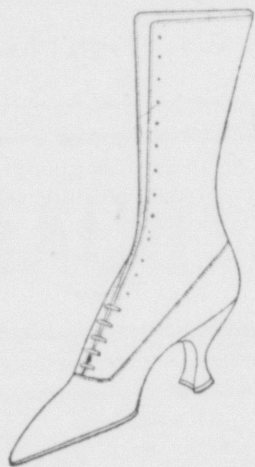

The Dallas Alumni of Phi Kappa Psi will entertain the local chapter and all visiting frats at a banquet at the Adolphus on the night of the Texas-Oklahoma game.

Phi Gamma Delta initiated Dick Wupperman and J. C. Davis on Tuesday night.

Latta Law, who has been here in the Aviation School, left for Mineola, N. Y., after a short visit to the Kappa Sigma House, to enter an Aviation School there.

H. P. Draught of San Antonio, vis-

Do You Know Good Shoes?

We believe we do, and we feel that you will take our word for it that no better shoes were ever made than

"JOHN KELLEY'S"

Not only good value, but STYLE to the Queen's taste, and just about the easiest and best fitting shoes you ever slipped your feet into.

Our business on these shoes is growing fast. There's a reason.

COLLEGE NOTES

Students as Freightmen.

An appeal has been made to the students of Tufts College and Worcester Polytechnic Institute to help the railroad companies handle their freight, during the present labor shortage. The students will be paid \$2.25 per day, which is the regular pay for freightmen. It is held that in doing this the students, will be doing their bit in a patriotic way, since every car unloaded will be used to transport things for the government. There are now 2100 cars stalled on account of the lack of labor.

Rowdy Sophs.

The Daily Cardinal says that the student self-government is on the trolley unless the students are more orderly. A Soph-Frosh riot has been the last straw. Thinking students at his school have realized the seriousness of the situation, and are trying to stem the tide and turn the dean's plans in a direction more favorable to a continuation of the present system.

Telegraphy at Wisconsin.

At the request of the Signal Corps of the army a new, free course in

ited the Kappa Sigma House Wednesday.

The Kappa Sigma Fraternity entertained its pledges Tuesday night with a banquet.

Frank Bobbitt, who has been in Dallas since Thursday, supervising the dairy exhibit, returned to Austin Wednesday.

The following men were initiated by Sigma Chi on Tuesday night: Irvin Gillett, Richard Gillett, Hatley Vah Sickle, all of Alpine; Claude McCann, Victoria; Albert Tatum, El Paso; Peter Smith, Austin; Dewey Bradford, Austin; Sam Richardson, Dallas.

Mr. Wayne, a Phi Kappa Psi from Kansas University, has recently entered the Aviation School.

The local Woman's Panhellenic Society of Dallas will entertain all visiting Greeks at a luncheon at the Adolphus the day of the Texas-Oklahoma game.

telegraphy is being offered at the University of Wisconsin to help supply the 25,000 operators which will be needed by the army. Night and day classes are to be held. The Western Union Telegraph Company is assisting in this work by giving apparatus and an instructor. Two types of students will be taught; those who wish to go directly into army service, and those who are preparing themselves to take the places left vacant by drafted men.

Bryan Still Talking.

The University of Iowa is to be favored with a visit from W. J. Bryan. Their paper announces his coming as "The man with long head and silver tongue." Bryan has always been a talker, even in the days when he was a college student. While in school, Bryan's long head received quite a compliment from his father, who wrote in reply to his son's request for a new pair of trousers: "My son, you may as well learn now that people will measure you by the length of your head rather than the length of your breeches."

Preparedness.

Old man Noah began building his boat and all his neighbors sat around smoking their corn-cob pipes and laughing at him. They thought he had bubbles in his think tank. "What's the use of being prepared," they said. "By the time you get the ark done, styles will be changed and your boat will be out of style." Other critics contended that Noah's preparation would surely start something. The very fact that he was ready would bring on a flood. Several weeks later Noah looked out of the cabin window at the wide expanse and be-

gan, to wonder what had become of his critics.

Penn Alumni Support Varsity.

The old-timers at Pennsylvania seem to never forget their alma mater. The Pennsylvanian tells of the receipt of a subscription to the paper from an alumnus of the class of '56. He is one of the oldest living alumni of the school. He wrote: Enclosed find \$3 renewal for the Pennsylvanian for 1917-18. At my time of life, am naturally not much interested in its contents. If you know any deserving student who can ill afford to subscribe to it, please send my copy to him.

WHERE ARE THE J. A'S.

If you are looking for any J. A. friends you won't find them braying on the campus.

The truth of the matter is that they are the hardest worked class in school. Prof. A. L. Green, popularly known as "Use'm," will occupy most of their time this term.

"Law Books, and How to Use Them," is the name of the innocent looking little book which the Co-Op handles for the benefit of Junior Laws.

Law books, it is admitted, are fair enough, but how to use them is where the rub comes.

Five hours of work for each lesson is not calculated to produce idlers, and it is to be hoped that these sturdy students will some day become ornaments to the bench and bar of their exalted profession.

BREAKFAST.

Sleep late, and take breakfast at the Longhorn. 2000 Guadalupe St. Phone 1630.

TEXAS-OKLAHOMA FOOTBALL GAME

DALLAS, TEXAS

ADVERTISE IN THE TEXAN

You may want to post yourself as to the Fall style features before seeing the clothes.

There is a tendency toward little longer coats of suits. Lapels are a trifle wider and slightly soft roll. Shoulders are a little wider and "worked up" to suggest a "Military" effect. The waists are high enough to give the wearer graceful, stylish lines.

These—and other—new features are brought out with particularly good effect in our **Society Brand Clothes**, which you should see.

Our lines are complete in every respect—styles, sizes, colors, and a price range to suit all.

SOCIETY BRAND, Style Leader for Young Men
\$25 to \$35

Any first class tailor would charge you from \$15 to \$25 more to make these suits—just the difference between making single suits and many suits—employing two or three tailors and hundreds of tailors.

CLOTHCRAFT, Popular Priced
\$15, \$16.50, \$18.50, \$20

ACHIEVEMENT

Twenty-five years ago the General Electric Company was founded.

Since then, electricity has sent its thrill through the whole structure of life.

Eager to turn wheels, to lift and carry, to banish dark, to gather heat, to hurl voices and thoughts across space, to give the world new tools for its work—electricity has bent to man's will.

Throughout this period the General Electric Company has held the great responsibilities and high ideals of leadership.

It has set free the spirit of research. It has given tangible form to invention, in apparatus of infinite precision and gigantic power.

And it has gone forth, co-operating with every industry, to command this unseen force and fetch it far to serve all people.

By the achievements which this company has already recorded may best be judged the greater ends its future shall attain, the deeper mysteries it yet shall solve in electrifying more and more of the world's work.

GENERAL ELECTRIC COMPANY
