Dear Stenzel;

Congratulations on your new baby. We have a baby girl also. Born Nov 21. She and Mrs. Remick are doing fine.

I shall probably be in Caldwell the last of this week or the first of next and will try and get over to see you. In the meantime try and tell me about those Lee County collections.

I am sending reprints to the following persons today

W. Hager
M. Kuebel
J. Brice
A. Heussen
Mr. H. R. Lemmes
Horsay

Ellison
J. P. H. Hull
Wm. Ferguson
Moody - Ohio
L. P. Teas
M. C. Spooner
E. S. Bastin
~~J. H. Bretz~~

I suggest that you send to the following geologists in the universities and surveys and the paleontologists in so far as possible.

✓ C. W. Cooke.
✓ Gardner
✓ Stephenson

Mansfield - The tertiary paleontologist on the U.S.G.S
✓ Strawbridge
✓ Mrs. Palmer
✓ G. H. Harris.
✓ A. Price.

Miss. Grace Wilmarth U.S.G.S
Prof R. B. Chamberlin

you may also wish to
send several to foreign
countries and this would
be desirable. Also to two or three
California tertiary paleontologists if you
know any. I don't

✓ Lake

✓ G. E. Meinger
✓ Holschansen

✓ G. Dallas Hanna

I have given away several in San Antonio
and sent about 12 to the various men
in the Vacuum geological dept.

I shall send the list of commercial
geologists tomorrow and I am leaving
this other list to you as I thought that
you would prefer ~~to~~ send copies out of
college station to them.

Those persons in S.G. that I gave copies
to I put "compliments of the authors." but
as I have no stamp I am not putting
anything on them because if it is in
writing it is first class and I do not
care to put out that much postage

Best regards until I see you,
Sincerely,

Reinick.
