MASS MEETING FOR MEN SUNDAY NIGHT

FACULTY MEMBERS AND BUSINESS MEN WILL ADDRESS STUDENTS AT UNIVERSITY METHODIST CHURCH.

EVERY MAN IS INVITED

What should be one of the greatest meetings for men will be held tomorrow night in the University Methodist Church, at 8 p. m. The ladies of this congregation will attend other churches of the community and all the men of the University and city representing every denomination are invited to gather at the University Methodist Church. Large preparations are being made for a great meeting. This has been deemed necessary on account of the work done by Mr. Mercer and Mr. Weatherford. Now the men of the University, including both Faculty and students, and the men of the city are urged to be present Sunday night to act upon some of the great moral and religious issues that confront us.

In the morning all the ministers have consented to preach a sermon bearing directly upon the mass meeting at night. The program for the night includes such speakers as Judge John C. Townes, Prof. T. U. Taylor and some of the more prominent students of the University. Possibly one of the prominent professional or business men of the city will also make an address. At any rate, a strong program may be expected and everyone will profit by being present.

The music is in the hands of Mr. McAfee and he is arranging for a male quartette, and perhaps other features. The singing of a large body of men is always an attractive feature.

While it is customary for the men of the University to have their engagement with some lady for the Sunday evening service, both are asked to forego that pleasure tomorrow night and though the mass meeting for men may be a novelty in one sense yet it has proven a great success in other places, and there is greater reason why the same should be true here. The speakers are men who are worth hearing, their position and life commend themselves and their words are backed by life not theory. They are in daily touch with the world and with students; their sympathies and interest are with them more than this the issue at hand vitally concerns every student. Let it be understood that all men are invited to be present at the mass meeting for men, Sunday night, April 10th, in the University Methodist Church.

Dr. R. H. Griffith is visiting schools this week in Southwest Texas.

SEVEN ENGINEERS ARE SUSPENDED

MEN WHO PLAYED PROMINENT ROLE IN FESTIVITIES OF LAST WEEK ARE ASKED TO GO.

WILL ENTER AGAIN

Seven students of the Engineering Department were officially suspended on Wednesday afternoon. Two of them were granted an absence leave covering a period of two weeks and the remaining number will be away for seven days. Five of the number are members of the Senior Class, two of these are student assistants and one of the assistants is president of the department. The two others are members of the Junior Class. All are among the leading students, not only of that department, but of the University.

The suspension came after a long and searching investigation made by faculty members from every department. It will be remembered that the student body appropriated April first as a holiday and it was given over to celebrating.

The students of the Law Department had been warned by the Dean, that in the event any member of that department perpetrated anything which was intended to provoke a difficulty between the Law and Engineering Departments, he would be dealt with in an unpleasant way. The Laws at this time had Alexander Frederick Claire, the guardian of the Engineering Building, but inferring from the remarks made by the faculty, they felt it would be wise to return the "Patron Saint." Such was done. On the morning of the eventful day the members of the Engineering Department appeared on the campus with "Mr. Claire" in a cart, which was drawn by a donkey. The donkey was wearing men's shoes and was appropriately labeled. This was so perfect that there was a striking resemblance between said donkey and "Perrigrinus"—the idol of the Law Department. The Laws seeing this they were unable to control their feeling of resentment and soon a goodly number were in the thrall of a class rush. Later in the day, when the anger of the departments had subsided to a degree, the Engineers threw a "dummy" from the drawing room of the Engineering Building with cries to the effect that it was a Junior Law. This may or may not have been intended to revive the strained feelings between the two departments.

At any rate these were the things which caused the suspension of the Engineering students. The committee conducted an investigation through a part of three days and at the conclusion of said investigation these gentlemen were suspended for the

(Continued On Page Four.)

YESTERDAY'S GAME A TIE

IN SLOW DOWNPOUR THE BONE-JUGGLERS AND VARSITY LONGHORNS FOUGHT TO A STANDSTILL.

SCORE 4 TO 4

In a slow falling rain yesterday afternoon the Bone-Juggling Medical students from Galveston tied the Varsity Longhorns with a score of four points for each team.

Singleton took the box for the Medics and Graham replaced him at 1st. Fulton pitched for the Longhorns. With these exceptions, the lineup of both teams was the same as Thursday. In the very first inning the medical students scored twice duplicating the performance of the day before. Ross was the first man to score. Then with Weller and Brownlee on bases McDaniel hit between 1st and 2nd, scoring Brownlee and putting Weller on 3rd. Hughs scored for Texas in the first inning. In the second inning, Weller scored for the visitors, and the home team failed to increase their number of scores. In the third inning the visitors tried in vain to chalk up one, but all to no avail. The Texas bunch in this inning awakened to the situation. Rector drove a hit over 2nd. Jones came to the bat and hit the ball to the fence for a two-bagger, at the same time scoring Rector. This tied the score at three points for each team. In the fourth inning McBride broke the tie by putting the ball over the fence and scoring their last point—making their total four points. Texas coming to the bat in the same inning again tied the score. Stacy was on third base and Fulton hit a slow ball to third. Weller returned it to Brownlee at the home plate; the latter dropped it, allowing Stacy to score. Game was called at the close of the fifth inning. Score 4-4.

WEBB IS VERY ILL

As we go to press at 7:30 p. m., Robert Webb, who lies at death's door in the Austin Sanitarium, is very little better. At 10 a. m. he had a sinking spell, but revived at noon. There has been little change in the last few hours.

Webb was taken to the Sanitarium on Monday night, suffering from an attack of the appendicitis. His condition was so critical from the beginning that an operation could not be performed. His people were called from Dallas and are now with him at the Sanitarium. A specialist from Dallas is also at the sick boy's bedside. Webb is a member of the Junior Class and a Kappa Alpha.

WILL GIVE PRIZE

Aaron W. Pleasants is in receipt of a letter from the Honorable Morris Sheppard, stating that he will give twenty-five dollars as a prize in oratory to the members of Rusk Literary Society. This contest will occur some time this term.

Mr. Sheppard is an alumnus of the University, a graduate of both the Law and Academic Departments; a member of Rusk, a member of Phi Beta Kappa, and a member of the United States Congress.

It is desired that a good attendance of the society be had tonight in order that the details of the contest may be arranged.

BONE JUGGLERS ARE DEFEATED

UNIVERSITY LONGHORNS SHOW FORMER VARSITY STARS THAT TEXAS PLAYS BALL.

SCORE 3 TO 2

On last Thursday, the first game in the series with the Galveston Bone-jugglers went to Texas with a score of 3 to 2. Altho the Medics were in poor condition, having little opportunity to limber up, they played an excellent game. Graham, with his excellent pitching, saved his fielders from hard work and had his old team mates at his mercy during the entire game, giving no bases on balls, not hitting a man and striking out twelve.

Gun, the south-paw "Albino," occupied the twirling station for Texas, and save for a nervous spell or two did creditable work. While Graham yielded three hits, Green was touched for four, and to Graham's 12 strikeouts, Green was credited with 9. The game was far from errorless, yet the only costly one for Texas occurred in the first inning, when the Medics scored on Rector's failure to field Weller's hit over second.

The Galveston team started with a degree of "pep" which looked good for a victory. Cross led off with a hit just over Geene's head, and McCauley followed with a bunt which Geene fielded but threw low to 1st with McCauley safe and Cross resting on third. McCauley took second. Brownlee in his desire to score the men died at the plate, but Weller straightened out a hot one over 2nd, which Rector let slip thru him, the hit scoring two men and leaving Weller on 3rd. Weller was nipped on the home stretch, trying to score on McDaniel's bunt and side retired.

GRAHAM'S

"You Know"

by catching McDaniels on his way to 3rd.

Neither team was able to score again until the 6th. With one man out, Hughs reached 1st and 2nd on bad throws from short and scored on error at 1st in attempt to catch Cub. Jones tied the score with a beautiful drive to the fence.

Again, in the 8th, Jones lined out a hit that scored a man and won the game. Rector reached 1st on a hit, and with both Hughs and Cub out, stole 2nd and made 3rd on bad throw to 2nd. Jones singled to right field that scored Rector. Geene held the visitors down in the 9th with little trouble, the game ending Texas 3; Medics 2.

The same teams play this afternoon at 4 o'clock with Graham again in the box for the Bone-jugglers. Score—Texas 3, Medics 2.

Lineup.

Texas.	Medics.
Brown	Catcher Brownlee
Geene	Pitcher Graham
Onion-Jones..	1st Base.. Singleton
Stacy	2nd Base .. McCauley
Hughs	3rd Base Weller
Wathen ..	Short Stop McBride
Taylor	Left Field .. McDaniels
Rector	Center Field .. Watson
Jones-Onion ..	Right Field .. Cross

Miss Marguerite Calfee has returned from Dallas, where she went to be present at the marriage of her cousins, the Misses Gray.

MORE CONSIDERATION FOR THE LIBRARIANS.

The academic library is open from half-past eight o'clock in the morning until six o'clock in the afternoon. Between those hours the librarians serve quite faithfully and efficiently any person desiring it. Always at a few minutes before six o'clock they begin to count and post the statistics for the day. There has been a tendency of late among many students to wait until the counting of the statistics has begun to ask for any book that they want for the night. This causes an interruption in work and in nearly all cases has thrown the librarians until after six o'clock before closing the library. Usually the persons who come late in asking for those books are students who have been in the library all of two or three hours before six o'clock. Why can't we show a little more consideration for the librarians by asking for our books before the counting of the statistics begin, and avoid interruptions? Refrain from rushing in just at the closing hour and asking for a book, which frequently requires several minutes to find it. It is as easy for us to get our books early and it will be a great service to the librarians.

Columbia has an endowment fund of \$28,500,000, the largest of any school in the country. Leland Stanford is second, followed by Harvard, Chicago, Yale and Cornell.

GRACE GEORGE SCORES GREAT SUCCESSES.

"A Woman's Way" is a Comedy of Modern Life.

Grace George has scored an emphatic success in her new comedy of modern life called "A Woman's Way" which she brings to Hancock Opera House on Thursday night, April 14. The piece is bright and witty and would easily succeed on its merits but assurance was made doubly sure when Miss George undertook to play the heroine. Her impersonations have a distinct charm of their own, for she appreciates the true spirit of comedy and handles her situations with a lightness of touch that preserves all their humorous value. Once again is shown the menage a trois; but their time the woman's way is somewhat different, for the old triangle of domestic intrigue becomes a joke instead of a tragedy. The three angles are Howard Stanton, his wife Marion, and the other woman. Stanton and his wife are already estranged when the former takes a trip in a motor car with Mrs. Blakemore, a fascinating widow, and meets with an accident, full particulars of which, with details added by imaginative reporters receive due publicity in the daily papers. Mrs. Stanton is to apply for a divorce immediately according to these enterprising journals; but as a matter of fact Mrs. Stanton intends to do nothing of the kind. Her husband is a light-hearted young man who does not know whether he is in love with the widow or not and frankly admits as much to his wife. Mrs. Stanton is a woman of discernment and much common sense with ideas of her own on the divorce question and the treatment of erring husbands. She declares that if Mrs. Blakemore wants her husband "she will have to earn him." Then she proceeds to make a test. She invites the widow to a dinner party, and the list of guests include Mrs. Stanton's young married brother, her brother-in-law and a former suitor, who is now a platonic friend, each guest being accompanied by his wife. Mrs. Stanton counts on certain disclosures being made that will cure her husband of his infatuation for Mrs. Blakemore and the plan works admirably. The widow has certainly had a list of admirers. The men protest in vain that her presence is most embarrassing. All of them having been involved at one time or another, and it gradually dawns on Stanton that he has made a fool of himself. Mrs. Blakemore sees that the wife has been one too many for her, and retires with as good grace as the circumstances will permit. Stanton, of course, recognizes the superiority of his wife, and as she is willing to forgive, there is a prospect of their former happiness being restored to them. Miss George is ably supported by a large and competent cast.

Courses in Swedish and Norwegian will be given at Washington University next year.

DEPARTMENT OF EDUCATION IS TO GIVE RECEPTION TONIGHT.

The Department of Education will hold a reception for its members and a few invited guests, this evening in Mrs. Kirby's room. Invitations have been sent to members of the various faculties of the University, to State officials, and to teachers in the Austin schools. The committee on arrangement is preparing to decorate the girls' study hall in the most attractive manner possible, and, judging from the activity of the refreshment committee, headed by E. R. Steller, those who attend the reception may expect something excellent in the way of light refreshments.

The object of the meeting is purely social. Contrary to the usual policy of this department, whose members are not averse to talking, there will be no speeches on the program. Arrangement has been made for an abundance of music, though the evening's exercises are to be enjoyed quite informally. An unusually large reception committee will see that everybody meets everybody else, and that nobody gets lonesome.

The Department of Education is rapidly growing, there being 319 members this year, more than two-thirds of whom are women. These meetings are doing much to develop departmental spirit among those who expect to make teaching a profession, and should go far in cementing the entire department into a compact organization.

GUY CARLETON LEE IS COMING.

President Mezes is in receipt of a letter from Guy Carleton Lee, Ph. D., LL. D., of Johns Hopkins University, who is to deliver a series of lectures in Austin soon, extending the privileges of the lectures to the students of the University. Some evidence of studentship will be necessary for presentation at the door, and it has been arranged for cards to be given out to those wishing to attend. They may be had on Wednesday, April 13th, at the Registrar's Office in the Main Building, and at the administration office in the Engineering and Law Buildings.

Dr. Lee's Austin dates are Wednesday, April 13th, at 8:15 p. m., and Thursday, April 14th, at 3:30 and at 8:15 p. m. The entire series will be given at the City Hall. His subjects will be as follows: "The Strength of The People," "The True Jefferson Davis," and "When The People Wake." He comes to Austin under the auspices of the Daughters of the Confederacy.

ATHLETIC ASSOCIATION GAVE MEN GOLD FOOTBALLS.

Each Man Who Won T Secures Ball.

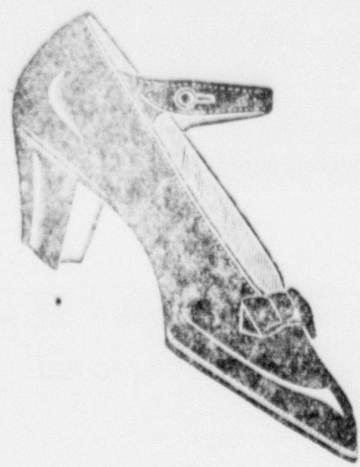

The Athletic Association of the University has presented to the football men who were awarded T's in 1909 each a handsome gold football as an honorary gift and a slight reward for their services and sacrifices on the gridiron. The footballs are of the fob size, and the name of the player and his position on the team is engraved upon one side of it. Upon the opposite side, there is an orange enameled T, and the numerals 1909 are worked in filigree. The trinket is of a very attractive design, and together with its significance, each possessor should be justly proud of it.

The footballs arrived only a few days ago, and were at once distributed by Manager Krah among the honorees in behalf of the Athletic Association. Those who were fortunate are Coach Draper, Manager Krah, Captain Dyer, Barclay, Bailey, Bland, Barnes, Kirkpatrick, Jones, Feldhake, Steller, Truitt, Persons, Spontz, Walker, Moore, H. Leonard, O. Leonard, Massingill and Ramsdell.

Lowney's Fine Candies, at McFadden's.

Chas. T. Paul, the Lord Mayor of San Angelo, came down to attend the annual Delta Tau Delta banquet. Mr. Paul was a student here several years ago and now bears the distinction of being the youngest mayor of any of the Texas cities.

DO YOU WANT ONE?

If you do, remember the date, Wednesday, April 13, absolutely the last chance.

Already over 800 copies of "Cactus" have been signed for, a hundred more than any previous year. The managers find their original order entirely too small—every copy having already been disposed of, and the demand not yet supplied, even here in the University, not speaking

of alumni and other out-of-town orders.

The only way to relieve the situation is to order a batch of "extras," which the managers have just done, and those who have not had an opportunity to sign up, do so Wednesday, April 13. Corridors of Main Building, just the one day, and the last chance to get a "Cactus."

Mrs. E. Y. Brown is visiting in Cleburne.

REESE AND ALEXANDER, AGTS.

MANY FORMER STARS ON MEDICAL TEAM

GRAHAM, WELLER, BOB RAMS-
DELL, A. O. SINGLETON, HAPPY
BROWNLEE AND OTHERS ARE
HERE WITH BONE-JUGGLERS.

WHAT THEY ARE DOING

The coming of the Galveston base-
ball team, the Medics, seems more
like the gathering of a lot of our
former stars of the diamond instead
of the arrival of an opposing team.
In fact, six of the team from the
Medical Department are former stu-
dents of the Main University and all
took prominent parts in student af-
fairs while here.

"Manny" Graham, the captain of
our visitors, was one of the strong-
est members of the Varsity pitching
staff for many years. He made the
Varsity team in his Freshman year,
and for four years he held his posi-
tion. As a reward for his earnest
efforts, his team mates elected him
for their captain during his last
season with us, 1908. On going to
Galveston to take up the study of
his chosen profession, the old base-
ball spirit had not left him; and as
a result, he was one of the foremost
instigators of the organization of the
team which played here. He oc-
cupies the dual position of captain
and coach of this, the first real
team of the Medical Department.

The first baseman of the Medics
is a former student of the Main
University, Albert O. Singleton, B. S.
'05. Like the other members of his
team Mr. Singleton was prominent
in all student affairs. He was a
member of the pitching staff in 1903
and played right field in '04 for Var-
sity. He was also president of the
Final Ball, besides holding many
minor offices within the gift of the
student body. He tried teaching for
a year after leaving the University
and then went to the Medical Depart-
ment where he will graduate this
year.

Clarence Weller, B. A. '05, catcher,
first baseman, third baseman, and
outfielder on the Varsity squad for
several years, tried his hand at
teaching at Peacock's School at San
Antonio and in the High School at
San Angelo. Later, he became an
oil magnate; but finally gave up his
aspirations to become rich and adopt-

ed his father's profession. He is a
Freshman at the Medical Department,
and, like Graham, was forced to don
the ball suit. He holds down the
third station for our visiting breth-
ern.

"Happy" Brownlee is still at his
old station in the baseball world. He
was a most popular student here for
two years and made good at the re-
ceiving end of the Varsity battery.
He is a member of the Sophomore
class of Medics and says that all
Medical students are students in
every sense of the word. But "Hap-
py" has found time during the in-
termission between lectures, lab-
work, etc., to keep up his old art of
protecting the home plate.

The shortstop of this alleged all-
star team is little Bob McBride of
Denton, who was for several years
an active student here. He never
tried for the Varsity team while
here; but showed himself to be a
very fast infielder during the class
and the fraternity games. His agility
and sure throws robbed many bat-
ters of what they thought to be
safe hits. Bob is a second year man
in the Medical Department and is
making good there as he did here.

Bob Ramsdell, utility man, presi-
dent of the Students' Council of the
Medical Department, and other things,
also, accompanied the team from
Galveston. Bob's experience in base-
ball here was limited to the class
games; but he deserves the position
he now holds, for he can fill al-
most every position on the diamond.
It is useless to mention the fact
that he was a prominent student
here. He was a football hero for
several years, Manager of The
Texan; and in fact, it is said that
he, assisted by T. U. Taylor, ran the
Engineering Department.

Thus, it is seen that the team
which we play on Thursday, Friday
and Saturday is not the team of a
rival school; but it is only a home-
coming of our old friends who will
entertain our boys by showing them
how it use to be done. And it is
good to see them back among us
once more.

EXCHANGE NEWS.

At Vanderbilt University there is a
proposed movement on foot to sup-
port athletics and student publica-
tions by a fee of ten dollars to be
collected from each student at the
beginning of each year. In return
the student is to receive a season
ticket to all athletic contests and a
year's subscription to the three
college publications. The fee will
not be compulsory, but those who
pay will receive a pass-button.

During an examination given re-
cently at the University of Missouri,
the professor in charge passed cigars
around and allowed the students to
answer the questions at leisure.

In the last twenty-five years Yale
football teams have scored 8,963
points to their opponents 425. Out
of three hundred games played, Yale
has lost but twelve, four of these to
Harvard, six to Princeton and one
to each Columbia and West Point.

The Chinese students of the Univer-
sity of Pennsylvania have organized
an economic club with tri-weekly
meetings.

Approximately 1,450 men are en-
gaged in some form of athletic ac-
tivity at Yale.

Members of the faculty of Minne-
sota have pledged \$100,000 with which
to build an apartment house for the
use of the University professors.

Lehigh's board of trustees recent-
ly decided to lend fraternities cer-
tain amounts of money for help in
building chapter houses on the cam-
pus.

Louis Jacoby, a graduate of Electri-
cal Engineering School here, in 1907,
came down from Dallas to attend
the State Golf Tournament. He is
a former star on our baseball field
and is now engaged in his chosen
line of work at Dallas.

CAMPUS AND CORRIDOR

Jas Cook, B. A. '09, spent a few days with friends here this week. Immediately after his school closes at Hillsboro, he expects to leave for Germany, where he will spend the summer.

Dr. Baxter, Dentist, 705 Cong. Ave.

Many a student has virtually found a spring suit by having his old one cleaned and fixed up by Curtis, who has charge of Moore & Morrison's Cleaning and pressing department.

Mr. Allen Wright of Austin College has spent the past week doing research work in the History Department for his M. A. thesis.

We loan Kodaks to students. Jordan, 610 Congress Avenue.

In the recent scrap between the Engineers and Laws some blood was spilt and several suits ruined. The former damage was slight and the latter was replaced by new ones ordered from Moore & Morrison.

Mrs. B. C. Epperson of Dallas is visiting her daughter, Miss Adele Epperson, at the Pi Phi House.

Lots of student necessities at McFadden's.

A first class choropodist at Silver and Allan's Barber Shop.

Miss Flora E. Goodwin of Austin, has withdrawn from the University, and will go to New York City, where she will enter a Bible training school.

Moritz Silver and Ed Allen's Barber Shop at the Driskill Hotel. The finest in the state.

Prof. Potts is spending the week in Central Texas visiting schools.

On Tuesday night the Chi Omega Fraternity celebrated Founder's Day, the main event being the initiation of Miss Victorine Field of Lockhart.

Miss Herma Uffty has returned from Galveston, where she attended the wedding of her sister last week.

Misses Nettie Mae Wilkes and Helen Lake are the guests this week of Miss Maydelle Campbell at the Executive Mansion.

Miss Jeanie Hunter is visiting at the Alpha Delta Phi House.

Seven Engineers Are Suspended

(Continued From Page One.)

aforesaid period of time. The intention of the committee was to get those who were prominent in promoting the affair. The men are not allowed on the campus any time during their period of suspension.

There is one very unpleasant feature of the thing for the Senior Engineers—that is they will be denied their exemption in final examination. This is the one event of a college man's life—to be free from examina-

tions during the last term.

Forgetting for the moment the edict of the faculty with reference to these unfortunate students, it is universally admitted that the stunts of the Engineers were the most original and laughable of any which have ever occurred—and they have one consolation which is they are nothing short of geni along that line.

LONGHORNS DEFEAT SOUTHWESTERN.

The game with Southwestern in Georgetown last Tuesday showed the relative strength of Texas and Southwestern in a more reasonable light. Southwestern was lucky enough to get away with the first game with us, merely from the fact that we hadn't worked enough to "get together."

The score Tuesday was Texas, 6; Southwestern, 1. We do not expect to lose to Southwestern again during the year, neither do we expect to lose many games to any other team. Incidentally, it may be remarked that if the student body of Texas wants one of the best teams that has represented the University for many a year, it is up to them to come out and give the encouragement which is due them. Nothing encourages a Varsity player more than to know that he has a solid student body behind him. We have shown that we have a good team this year—a team which, with the proper support of their fellow students—will make a worthy representative of the University of Texas, and that means a good team.

One encouraging thing in the game against Southwestern was that our players hit well. Wathen and Onion drove out some long ones; and Hughs, Ryan, and Groesbeck added their share to a total collection of ten bingles.

Groesbeck showed much better form than he has shown in any former game. He has apparently learned the advantage of "Cutting the Corners." He used his head to good advantage in mixing up balls and strikes, fast ones and curves; and, all in all, with such pitching as he did in this game, he will be hard to beat.

There is fine spirit in the players, harmony among themselves; and in our future games, we think we deserve the solid support of an united student body.

PLATTER'S SCRUBS WALLOP METZ.

The Scrubs walked on Ford School and Mr. Metzenthin last Tuesday to the extent of 15 to 3 in 4 1-2 innings. The game was slow only when the Scrubs were at bat.

The Scrubs did not have their regular lineup or the score would have been much worse. Dud Tarlton and the old reliable Ty Cobb Byrne did the twirling for the Scrubs and it was effective all the time. Mr. Metz worked for Ford's and was hammered hard, but errors were responsible for many of the runs.

The Scrubs pulled off several double plays and before the thing was over one-hand catches were in vogue. The Scrubs were there forty ways and one and showed what class they are in. Remember—Scrubs—champions secondary schools 1910.

ENGINEERS HAVE BIG DEMONSTRATION.

The Engineers demonstrated Thursday morning in quite a unique and ingenious fashion with their usual show of department spirit and loyalty. It will be remembered that seven of their classmates adjourned scholastic activities for a few days, and to bemoan their departure was the object of the gathering. Attired after the manner indicative of the outcast—that is, the suit case and trailing tin-can, fifty Engineers paraded the campus in single file, emitting mournful wails and chanting the Claire funeral dirge. With bowed heads and downcast looks,

We have received some of the Snappiest Classy Clothes for Young Men made by N. Y. Tailors and worthy of your patronage, not from any sentiment but for business reasons strictly. Come and see THE Clothes.

Give us your orders for fraternity paper, individual monogram paper, wedding invitations, dance programs, visiting cards; anything to be engraved. We will appreciate it and make the right prices.

the long column drew up before the Dean's office outside the Main Building, and sadly sang the verses of "Home, Sweet, Home."

Each head was uncovered when they marched past the A. F. Claire burial ground and the scene of the recent encounter. Then the pro-

cession, with slow and measured step, went even within the very shadows of the Law Building. After circling the campus, they gathered in front of the Engineering Building and gave the department yell. The whole affair was a perfect display of mock obeisance.
