June 22, 1950

Dear Dr. Stenzel,

Just a note to let you know I have received my thesis and will start on the corrections as you have suggested.

In looking over the thesis I noticed the discussion on the Geologic Exploration of the area was left out. Don't you want me to include it? I gave it to you about a week before I received the news about my job.

At the present time we are extremely busy trying to do a year's work during our summer weather. It may be a couple of weeks before I can get started on it but I will do so as soon as possible.

Yours respectfully,

Leroy

P.S. Stanolind's head Scout in Billings is an old school mate of Dr. Ellison's. His name is Joe Schwartz.
