L.-Reidt-Strasse. - , am Kallertsee  
Farnraf 804 - *Germany*

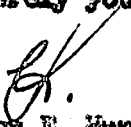

Dear Dr. Wetsel:

Dr. A. Scott Warthin has forwarded me your letter of September 2, 1952, concerning your manuscript on "New Documents from the Micropaleozoic and Petrographic Archives of Flints and the Contemporary Cretaceous." I have been unable to locate your manuscript and we have no record that it was ever received by the editors of the Journal of Paleontology for the Society of Economic Paleontologists.

I am asking Dr. Stenzel, Mr. Hull, and others to assist in efforts to locate it. As soon as I am able to find out something definite I shall contact you again.

With best wishes, I am

Sincerely yours,

  
Grover E. Murray, Editor  
Journal of Paleontology
