

FRAT AND CLUB LEAGUE MAKES FINAL SCHEDULE

Games Will Begin on Next Monday and Continue Until May 3. Divisions into 3 Sections Made. Winners Get Cup.

With the adopting of a schedule and rules governing the playing of games, everything is now ready for the opening of the Inter-fraternity baseball league games next Monday. Yesterday afternoon twenty representatives of the clubs and fraternities belonging to these leagues met and adopted the rules and schedules as drawn up by the committees.

The committee on grounds was unable to report anything with regard to the grounds to be used, but stated that it was making arrangements for the use of two diamonds. The schedule calls for two games every day and with the re-entering of the Chi Phis into the league three games will be played on their scheduled days. The rules which were drawn up by the eligibility committee and adopted are as follows:

1. Any man who shall have received a letter for baseball in any university or college shall be ineligible to play in this league.
2. That any man who shall have played professional baseball shall be considered ineligible to play in this league.
3. That any pitcher who shall have in the past represented or shall in the future represent Varsity in any part of one game shall be considered ineligible to play in this league.
4. That any other player who shall have in the past participated, or shall in the future participate, in any part of three scheduled Varsity games shall be considered ineligible.
5. That each fraternity or club in this league shall vouch that the players of their respective teams are bona fide members of such fraternities or clubs.
6. That no games shall be thrown out for any cause agreed to by the captains of each team before such game was played.
7. That all fraternity pledges not eliminated by the rules governing eligibility of pitchers and other players shall be counted eligible.
8. That any player who shall belong to two of these clubs shall represent only one of them in this league.

The official schedule as adopted at the meeting is as follows:

First Division.

- March 29—Newman vs. A. T. O.
- March 30—Sigma Nu vs. Beta.
- April 5—D. K. E. vs. Independents.
- April 6—Sigma Chi vs. Newman.
- April 8—D. K. E. vs. Beta.
- April 12—Sigma Chi vs. Independents.
- April 16—D. K. E. vs. A. T. O.
- April 17—Newman vs. Sigma Nu.
- April 20—Sigma Chi vs. Beta.
- April 21—A. T. O. vs. Independents.

(Continued on page four.)

ELECTION OF QUEEN

Cast your vote for the queen of the Pageant today. Choose your senior and vote in the Girls' Study Hall or in the Girls' Gym any time today or tomorrow morning. The polls will be closed at 12 Saturday afternoon. All women students of the University are eligible to vote.

LOCAL Y. W. C. A. WILL ENTERTAIN NEARBY SCHOOLS

Conference to be Held for all Associations in Schools and Colleges in South Texas—Officers Were Installed Yesterday.

Plans to hold a Y. W. C. A. conference on April 25 and have as their guests all Y. W. C. A. from Baylor, Southwestern, and the preparatory schools and normal of San Marcos, were yesterday made by the present and newly elected cabinet of the local Y. W. C. A.

Modes of entertainments were discussed and definite arrangements will be made several days before the meeting of the conference.

The newly elected officers were installed. They are as follows:

President, Marguerite John; vice president, Charlotte Spence; secretary, Mildred Chumlea; treasurer, Louise Meggee; chairman of music committee, Coronal Thomas; poster committee, Pauline Pinckney; association news committee, Elizabeth Hunter; social service, Ruth Potts and Berneta Minkwitz; religious meetings committee, Clio Rice; assistant treasurer, Linda Lancaster; practical needs committee, Gladys Walsh; Texan representative, Rosselle Gould; Bible study committee, Anne Herring; social committee, Hallie Reed Greer; Mission study committee, Kathleen Molesworth; conference and convention, Ruth Hall; student volunteer representative, Lizzie Blasdel.

MINE EXPERIMENT STATION SOUGHT

Texas Bureau May Receive Federal Testing Labs—Extension of Work Done at Present.

The Bureau of Economic Geology of Texas is making a strenuous effort to secure one of the three mining experiment stations soon to be established by the Federal government. The creation of these stations will be as a result of a bill recently passed in congress providing for the establishment by the Bureau of Mines of the Department of Interior of ten mining experiment stations and for the establishment of seven mine rescue stations, but providing that only three of these are to be established each year until all are established. The entire Texas delegation, under the leadership of Congressman J. P. Buchanan, at Washington, are urging the establishment of one of the first three stations at the University of Texas in connection with the Bureau of Economic Geology of this State.

This station will, if established, concern itself mainly with investigations of the non-metallic mining products of the Southwest and Texas. Bulletins will be published from time to time setting forth the knowledge acquired from the various experiments and analyses performed. It is thought that such a testing station in Texas would be of inestimable value to the various mining, and building companies of the State as well as to purchasers of large quantities of fuel such as the State purchasing agent.

The bill as passed carries no appropriation and the station if established would necessarily be supported by the Texas Bureau until congress makes some appropriation for its support. This, however, would work no hardship upon the bureau as the present equipment could be used to advantage in the proposed experiments and it would merely mean an extension of the work done at present. The bureau already conducts tests for all the fuel materials pur-

(Continued on page 4.)

MASSEY LEAVES SATURDAY FOR MAJOR LEAGUE

Texas Captain Goes to New Orleans to Join Birmingham's Ohio "Naps." Team Gave Suitcase—Disch Spoke, Gambrell Elected

Having had offers since he was a high school boy from the two major leagues, Herbert Massey, captain of the Texas team, will leave Austin Saturday to join the Cleveland Americans now training in New Orleans. Massey has been on the Texas team for the past three years, having made the team when he was a freshman in the University.

Last year when Jack Coombs of the Philadelphia Athletics saw "Mike" in action he said, "With another year of the able coaching of William Disch that youngster will be able to hold down a position on our infield." Several offers from teams of faster company have been received by Massey, but were rejected for college baseball.

Massey gets \$1,000 bonus for signing the contract and \$400 a month for his time while playing with the Cleveland team.

The team presented the departing captain with a handsome suitcase with his name stamped on the side in gold leaf. Coach Disch made the presentation speech, expressing his regret in seeing the fast shortstop leave. Mr. Disch commended Massey as a player and as a true sport both on and off the baseball diamond and in the words of the coach, "Above all he is a gentleman."

In his reply to the tribute paid him Massey expressed his regret on leaving the team, with the hope that he would sometime have the chance to visit his teammates.

Tom Gambrell, the speedy shortstop, was elected captain to fill the vacancy made by Massey's leaving and will be seen at shortstop for the remainder of the season.

AUSTINITES BY HUNDREDS GREET FRITZ KREISLER

Austrian Musician and Soldier Appears Before Packed House in Recital of Characteristic Violin Selections.

With a house packed to its utmost capacity Fritz Kreisler, world renowned violinist, and Austrian soldier of the present European war, rendered his choice violin selections at the recital given in the auditorium last night.

The program included an old concerto by vivaldi, a seventeenth century Italian composer, which Mr. Kreisler rescued in manuscript form from a monastery in Italy and rearranger, and a place by Tartini, known as the "Devil's Trill." Tartini claimed that he dreamed that the devil appeared to him in a dream and undertook to tempt him with his violin. Old Nick, he said, sat on his bed and played this piece, which the dreamer reduced to writing next morning. After these two seventeenth century compositions, the violinist played as an encore a Spanish serenade, by Scharminade.

Other selections including "Humoresque," by Dvoarak were given which is one of the violinist's favorites.

Alva Carlton is confined at the Seton Infirmary, suffering from ptomaine poisoning.

Leslie Etter has recovered from a recent illness, due to an absense on his jaw.

FAILURES REACH CLIMAX IN LAST TERM'S REPORT

Approximately Hundred Fall by Wayside and Thirteen Make no Course. Number Commended Not as Large as Last Year.

Approximately ninety-eight students falling below the passing line, with sixty-six of this number first year students, tells the story of the report given out by the dean of the academic department.

Dean H. Y. Benedict said that probably one-tenth of this number would be brought above the passing line by mistakes in copying the grades.

In addition to these students who have failed to make two or three courses as the case may be, thirteen students failed to make a single course. Four of this number are upper classmen who had in former terms made enough courses to remain in the University.

In contrast to those who displayed inferior book learning there were 113 students commended for excellent grades. This number fall 23 short of last year, there being 135 commended at that time. The 1913 winter term report showed only 105 commended.

Dean Benedict in making the report on failures emphasized the probability of that number being decreased when the official count was made.

Robert Gage has returned from Fort Worth.

DANIEL BAKER TO PLAY HERE TODAY

Coach Freeland, Well Known in all Athletics, Here With Good Men. Changes in Texas Infield.

Clark Field will be the scene of the first of the two scheduled games with Daniel Baker team this afternoon. This is the second inter-collegiate game of the season for Varsity, and though the Longhorns have won several hard games this season already, Daniel Baker expects to prove they are the hardest ones Texas has yet met.

Daniel Baker has improved wonderfully in the last three years. Under the work of Coach Freeland, that school has come up into college ranking in all its athletics. Coach Freeland will be remembered as the former Vanderbilt star. During his stay in that college he was considered the best athlete in the entire South, making fourteen letters in the major sports. This is his last year with Daniel Baker, as he has signed a contract to coach T. C. U. next year, and this will be the last chance to see the splendid machine that he has built from the ground up.

The batteries for Daniel Baker have not been announced. They have three excellent slab artists, who will be able to perform when called upon. For Texas Bailey and Cone will pitch while Anderson will be on the receiving end as usual.

A general shakeup in the infield has been necessitated by the departure of Captain Massey. In the last game Monday with Southwestern Gambrell was shifted to short from second, and Monning, the former Southwestern star, was brought in from the outfield to second base. Both men played their positions admirably, but it is uncertain whether this change will continue or not. Coach Disch has been working several men at short and it is probable that some of these will be given a chance today.

The game will be called promptly at 4 o'clock.

Miss Marion Mallard of Georgetown is visiting friends here.

UNIVERSITY HAS BOAT HOUSE ON LAKE ABOVE DAM

Skiffs and Row Boats Will Be Rented to Students at Reduced Rates. Council Draws up Rules Governing New Club.

The University of Texas Boat club, which has so long been a matter of speculation and doubt, has at last become a reality and is in active operation. The space behind the wall at Lake Austin has been filled in and leveled down to a gradual slope, which makes the property the most attractive on the lake front as well as the most valuable. A broad walk which runs the entire length of the property front has been finished and mounted with iron railing. A temporary shed of galvanized zinc has been constructed on the property for the purpose of housing the boats. There are now about thirty boats on the site and more have been ordered.

The purpose of the club is to give the students, ex-students and faculty members of the University a reduced rate in the rental of boats, as well as to erect a permanent structure on the grounds. A fee of seventy-five cents has been decided upon for a membership for the remainder of the term. This will entitle all holders of membership cards to get boats at an extremely reduced rate. This will also entitle members to store their private boats for the price of seventy-five cents per month.

The plans for the boat house are expected from Houston tomorrow. As soon as they are received they will be gone over thoroughly by the Athletic Council for the purpose of deciding definitely whether this structure will be built immediately. It is the opinion of several of the council that this is the biggest undertaking that has ever been attempted in the way of improvements by that department alone. The club house as now planned will be a two-story structure. The first story to be hewn stone capped with one story of wood work of the mission design. The second story will be open on all sides with verandas running around the entire structure. It is the purpose to construct this in order that it can be used for a dance hall for the university functions. Large floats are also being put in front of the property in the Lake for a landing for all boats. These are being made so they will rise or fall with the height of the river.

The boat house grounds are under the direct control of the Athletic Council subject only to the faculty and board of regents. Some of the regulations of the club are as follows:

Privilege tickets are non-transferable. The boat house will be closed on Sundays from 9 a. m. until 1 p. m. City police regulations will be observed and the authority of the management respected. The giving of tips is prohibited. Members may reserve boats in advance.

CHAPEL NOTICES.

Who says people do not like to sing? Come to chapel and find out. You will see a crowded room and hear fine singing. We are doing nothing but sing this week and we certainly do like to hear ourselves sing, about as much as some people like to hear themselves talk.

There was no special music yesterday because the soloist was unable to get there. But a soloist will be on hand this morning, Miss Edleen Begg, who always gives us something good, and on Saturday that fine bass singer, General Stacy, will favor us with one of his excellent selections.

A HAPPY SOLUTION.

Faculty members say that they are going to tear down the old iron tank. Students say that there is going to be trouble if they do. The Engineering Department needs a source for water pressure. The band needs a secluded spot for practice. The seniors are going to buy a set of chimes for the University sometime in the not distant future, but have no place to set them up. The University needs traditions, myths, etc.; all respectable colleges and universities have them.

You do not get much sense out of the foregoing paragraph, do you?

Well, here is the point. Let the tank stand, thus easing the hearts of the patriotic students; but cover it over with a stone or otherwise artistic screen, which will rob it of its ugliness and its weakness before the paint brush of the sophomore, thus leaving the faculty without a cause for kicking. Then it will afford the seniors a pedestal for their chimes, the Engineers a source for water pressure, the band a place for practice, and the patriotic student something to hang his affections upon.

To sum it up, the now inartistic, iron tank, serving in little other capacity than to produce trouble, will become an attractive tower serving in the practical capacities of supplying power for the Engineers and lining a place in the hearts of the students, and, all the while, emitting tuneful chimes from the belfry above and melodious duties from the grotto underneath. All this taken together will afford the University a beautiful tradition to hand down to posterity. Who would have thought that the poor old iron tank was capable of so much utility?

THE MILITIA MOVEMENT.

What has become of the militia movement? Everybody was for it a few weeks ago, but interest seems to have slackened. Perhaps it is due to the exams, or more likely it is due to that fatal habit of getting careless again as soon as the scare is over.

At any rate, this is a good time to get together on the proposition again. There are enough interested students in the Uni-

versity to organize several companies; the majority of the faculty is willing to see the militia movement carried out; and the government is willing to go more than half of the expense.

Arguments for the good of such a movement are useless; they are too generally recognized. All that the movement needs is a leader. Why does not some military spirit take hold of the idea and put it through?

PERSONALS

Renick Smith has returned from a short visit to his home in Dallas.

Lamb Griffin of Henderson has re-entered the University.

Miss Georgia Streeter is spending the week in Waco.

Miss Bertha Rasbury has returned from a visit in Bryan.

Misses Willimae and Agnes Ledbetter, Tress Denson and Pauline Murrah leave today to spend the week-end in Cameron.

Leslie Shelton of Mart, Garland De Graffermeidt of Marlin and Willis Howard of San Antonio, were visitors at the S. A. E. House this week.

The Delta Tau Delta fraternity will give their annual banquet for their alumni, on the evening of April 4.

Mrs. Gouger of San Antonio is visiting her daughter, Naomi.

Miss Myrtle Ruth Yantis of San Antonio will arrive tomorrow to visit Miss Stella Hagy.

Miss Francis Martyn of Dallas is an expected guest of Miss Aline Brandenburg.

Miss Anne Carter of Georgetown is a guest of Miss Mary Williams at the Tri Delta House.

Paul Woodward of Fort Worth will be a visitor at the Theta Xi House next week.

Miss Merle Mears will return tomorrow from Gatesville.

The Kappa Alpha Theta sorority will entertain their freshmen Monday night with an informal party.

Miss Lois Spears of San Benito has re-entered the University.

Misses Adele Schwartz and Zerlina Levy are visiting in Hempstead.

Miss Mary Stokes of Lampasas is visiting her sister, Miss Margaret Stokes.

The S. A. E. fraternity will entertain with an informal dance Saturday evening at their chapter house.

SHORTHORNS HONORED.

An innovation which has recently been inaugurated by the Athletic department is the collecting of the photographs of the football second teams. Already the pictures of the teams of 1909, 1911, 1913 and 1914 have been posted in the picture gallery of the gymnasium, and it is the purpose of the Athletic department to have each team in the future honored with its picture in the "gallery."

"TEXAS" DOCTORS OBTAIN LARGEST ANNUAL SALARIES

Recent Statistics Show That Physicians Get Best Pay—Lawyers Fall Below Par at First, But Succeed Afterwards.

E. V. White, director of the Division of Public School Improvement, of the University of Texas, engaged recently in a very interesting study the purpose of which was to ascertain, as nearly as possible, the financial returns which the student may expect at the end of a ten year period from the money which he invests in a University education.

Taking the class of 1903 containing 69 academic graduates, 9 engineers, 35 doctors, 57 lawyers and 22 pharmacists making a total of 192 graduates, Mr. White addressed a list of questions to each living member endeavoring to elicit information as to his or her earning capacity at the end of the first year after graduation, and at the end of the 3rd, 5th, 8th and 10th years, respectively. Nine members of the class were dead, fifteen could not be reached, their addresses having been lost. Seventy-six answers were received. The following is the information received from seventy-six answers:

Academics—First year, men, \$686, women, \$550; third year, men, \$1223, women, \$607; fifth year, men, \$2111, women, \$842; eighth year, men, \$2462, women, \$1031; tenth year, men, \$2522, women, \$1015. Average—first year, \$639; third year, \$1022; fifth year, \$1605; eighth year, \$1985; tenth year, \$2108.

Lawyers—First year, \$668; third year, \$1278; fifth year, \$1915; eighth year, \$3097; tenth year, \$3812.

Engineers—First year, \$857; third year, \$1160; fifth year, \$1430; eighth year, \$1803; tenth year, \$2008.

Doctors—First year, \$1092, third year, \$1942; fifth year, \$2750; eighth year, \$3500; tenth year, \$4467.

Pharmacists—First year, \$636, third year, \$1076; fifth year, \$1250; eighth year, \$1375; tenth year, \$1850.

Average—First year, \$708, third year, \$1219; fifth year, \$1822; eighth year, \$2498; tenth year, \$2943.

Concerning the above, which is self-explanatory, Mr. White says:

"It will be noticed from the table given that the doctors have apparently prospered most, the pharmacists least.

"It will also be noticed that the personal earnings of the men more than double the personal earnings of the women. The lawyers fall below the average at the beginning but exceed the average after the third year.

"It may be contended by some that the amounts do not represent fair estimates for the reason that only prosperous students have answered the inquiry. To this objection, I would say that thirty of the seventy-six reported amounts varying annually from \$20.00 to \$12,500.00 which was not included in personal earnings. Many of these amounts exceeded their personal earnings. I would say that I know personally many who did not respond to the inquiry, several of whom are earning far more than that indicated by the table. In addition, many of the women graduates have married and could not, therefore, make a definite report as to their personal earnings for the several years.

"I am of the opinion that the personal earnings of the average graduate for the year will be at least equal those indicated in the above.

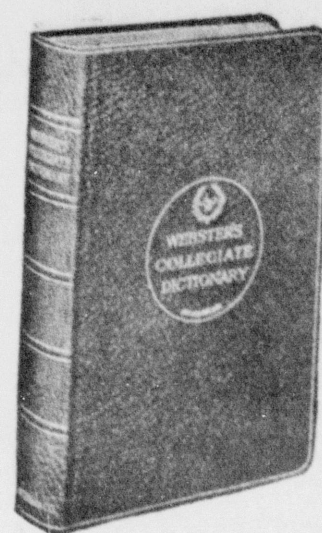

"Of the seventy-six answering the inquiry, I wish to call attention to the fact that twenty-nine were the sons of farmers, and that fifty-four reported that they had earned part or all of their expenses incurred while attending the University. Many of them reported that they had made all the money in attendance upon the University."

THE CO-OP

HISTORY 2 STUDES MAKE GOOD.

According to Dr. Duncalf, professor of Medieval History, this year's class in History 2 leads all previous classes in both good work and resulting grades. Dr. Duncalf stated that although he had prepared no actual statistics for the term's work just completed, he was positively sure that

the statement of its superiority which he made at the beginning of the term still held good. He was of the opinion that there would be less "bust-outs" in this rocky course than ever before. This being the case it seems that the number of students usually classed as second year freshmen for single reason of History 2 will be smaller next year than usual.

COMING

The Mag is scheduled to appear on or before the first of April. This is for the benefit of those who enjoy the usual holiday. A mighty good way to spend the day will be to take the Mag along with you (in company with your best girl—co-eds to regard this as leap year) to one of the parks. The day will be well spent.

SENIORS

It is reported that the senior Academics are going to take a few volumes with them to make the holiday pleasant while frolicking on the green banks of the beautiful Colorado. By special arrangements no press dope will be given out, and the only way to find out what is in this high-class Mag will be to get one and read it when it appears.

FRESHMEN

The finals may have struck you petty hard, but there is still hope as long as there is life. This term you will have to do some work in description and narration. If you don't realize what this means, just ask one of the sophomores or juniors in your class. They have had experience, and you know how much that means. Ask them at the same time if they are not sure that you will profit by reading the high-class dope in the Mag.

CO-EDS

The new management realizes that half a dozen of you can read the same Mag, but you cannot take it to your several homes. True, you may get a subscriber to support in later years, but that will avail you nothing. You know how care men are. Besides, they are sending all the issues to their mother, or some other good friend. We don't doubt for a moment that you will get a man who is a subscriber. All of them who are worth having take the Mag. They have the power of discrimination.

\$1.00

We are almost too modest to tell you openly that you can get both the Mag and the Daily Texan for the remaining three months for the modest little dollar. We tawe this method of telling you, for (1) We know you are reading your neighbor's paper, (No student could exist without reading the Texan or Mag) and (2) We know that there is some little inconvenience for your neighbor to wait until you have finished with his paper.

Moral: Come around to the office today, tell us where you want the paper sent, and leave a dollar to prove your good faith.

MINE EXPERIMENT STATION SOUGHT

(Continued from page 1)

chased for state use and of all the building stones and road materials produced in the State.

It has a museum, located in the basement of B. Hall, which contains tested specimens of all the minerals of the state. The building materials such as sandstone, granite and limestone are in complete collections. Other materials included are marbles, serpentine, other ornamental building stones and sulphur. Besides these there is a complete exhibit of the products of Texas petroleum.

DR. PHILLIPS PUBLISHES BOOK.

350 Page Volume Contains Discussion of Texas Minerals.

Dr. W. B. Phillips of the Bureau of Economic Geology has recently written a book dealing with the mineral resources of Texas. In it he enters into detail discussion of the minerals of the state treating of the mineral wealth of each county. The book is now on the press and is expected to be ready for distribution by early summer.

The volume will contain some 350 pages and forty cuts showing views of the various mining and quarrying industries of Texas. These include sandstone quarries, granite, limestone and marble quarries, sulphur mines, and oil wells. The latitudes and longitudes of some 200 localities will be given and the altitudes of 5000 localities. Mountain ranges and hills will be located. This is considered to be a most complete book of its kind and will be a reference of information of this nature to January 1915.

The Beauty Page is Scheduled for this month. Why? What?

LAIRD SCHOBBER SHOES FOR WOMEN

DILLINGHAM'S

OFFICIAL NOTICES

Pre-Medics Notice.

There will be the first Pre-Medic meeting of the spring term at the Y. M. C. A. tonight at 7:30. Everybody out.

PRESIDENT.

There will be a meeting of the Students' Council tonight at 7:15.

E. H. LAWHON.

Miss Decherd will entertain her Sunday school class at the University Methodist church at 4:30 next Saturday afternoon. It is hoped that every girl will be present.

Students Invited.

All Methodist students and their friends are invited to attend a social given at the University Methodist Church Monday, March 29, from 8 to 10:30 p. m.

Freshmen Declaimers.

All freshmen representing the literary societies in the declamation contest meet in the law auditorium at 2 p. m. this afternoon for the semifinals.

Seniors.

Be sure to sign the petition at the reserve desk at the Library today.

PRESIDENT.

Sidney Lanier.

There will be a call meeting of Lanier today at one o'clock in room 207. Important business.

JUNIORS TAKE BOAT RIDE.

Go Up River and East Supper. Prom This Evening.

Thirty couples of the junior class left the University campus yesterday afternoon at 3:30 for a boat ride on Lake Austin. The Monarch of Tampa carried the party some eight miles up the river where they landed and ate a picnic lunch prepared by the girls of the class. The juniors came back just at sunset.

The class will again make merry this evening when the Junior Prom is held, commencing at 7:30 in the Woman's Gym.

BUREAU HAS INTERESTING MAP

The State Bureau of Economic Geology has in its possession a most interesting and complete map of Texas, which won the gold medal at the world's fair at St. Louis. There is no place to hang the map at present or it would doubtless be on display for the public's inspection.

MINSTREL REPEATED.

The Ladies of the Order of the Eastern Star will repeat their minstrel Saturday evening for the benefit of those who could not secure seats at the previous performance. The proceeds to go to the Old Ladies Home. This time the roost will be open to University students.

The All Star Cast of 77 women is composed entirely of local talent and University co-eds. Mrs. Hartyn Elliott is one of the leading niggers, and she reports that she will be worse funny than ever. The minstrel will be staged at the Hancock Opera House, and seats are now on sale.

SENIORS OF ONE ACCORD.

Class Unanimously Adopts All Motions—Will Buy Chimes.

Upon motion of Meade Griffin, the senior class at its meeting yesterday decided to follow up the chimes movement, first introduced by the class of 1913, and set April 1 as the day for each members contribution of one dollar. The chimes movement was first started by the class of 1913, and its purpose is to supply the University with a set of chimes.

The class decided to have a boat ride on the afternoon of April 1. They will go about twelve miles up the river, then lunch, and return with the night.

When the motion was made that instead of going as couples, the class go in a body, a co-ed was the first to second it, and the motion was passed with enthusiasm.
