Dr. H. B. Stenzel
Bu. Economic Geology
University of Texas
Austin, Texas

Dear Dr. Stenzel:

I have a fossil crab in a good state of preservation from the Cretaceous in Baja California, Mexico. It was collected June 25, 1953 by Drs. K. O. Emery and Carl L. Hubbs and later turned over to me for identification. I have been unable to identify the creature from the literature available to me and I was wondering whether you might be interested in taking over this problem. If you do not have the time to do this, I would appreciate your suggestions as to whom it should be sent.

Sincerely yours,

Robert J. Menzies
