

WILSON

May 20, 1969

Professor James Lee Wilson  
Geology Department  
Rice University  
Houston, Texas 77001

Dear Jim:

I was just going to write Martha-Lou a letter to let her know of the dates of the L.S.U. Graduate Summer Field Conference, when your letter came. We have scheduling troubles, because L.S.U. needs me on the same days.

At present, nothing can be done here in the way of re-scheduling, because Bob Perkins is in the field in Chiapas, Mexico, talking to rudistids. He will be back about May 21. At that time I shall try to rearrange the schedules by leaving the Rice schedule intact.

I would very much prefer to be taken to Hempstead August 17th in the afternoon, because being ready to travel at 7:30 a.m. on Monday would give me troubles. I have my problems early in the mornings; rusty bones don't move well.

We shall need a small transportable black board. Otherwise, the conditions laid out in your letter of May 15, 1969, are agreeable enough, and I am looking forward to interesting arguments with the participants.

Best wishes,

Sincerely;

H.B. Stenzel  
Visiting Professor  
of Geology
