

May 24, 1949

Dr. Lloyd W. Staples
Department of Geology and Geography
University of Oregon
Eugene, Oregon

Dear Dr. Staples:

Thank you for your informative letter of May 18, and the return of the specimen of silicified wood, which arrived safely. I regret that the material was not more informative because this case of silicification is rather interesting and I would like to know more about the processes involved. I hoped you could at least use some of the results. With many thanks,

Sincerely your,

H. B. STENZEL
Geologist
