

SOHIO PETROLEUM COMPANY

PRODUCTION DEPARTMENT

GULF COAST DIVISION
GEO. S. BUCHANAN, MANAGER

1720 ESPERSON BUILDING
HOUSTON 2, TEXAS

Oct. 30, 1946

Dear Henry:-

Be assured of my great esteem & affection.

I have been popping in and out of town, and got in last night from Biloxi. We attended the A.A.P.S. and then had a Sohio Biological convention, Saturday morning and thru Monday. Should be back to normal next Monday.

The Calif. situation is beyond me. One who knows told me Durham was not so hot. Have heard nothing from Camp. Guess I should put him on my S.O.B. list and forget the matter.

The meeting of the A.A.P.S. was super. The papers were very good indeed, and that part of Miss. is not dry, even on Sunday.

Howe dashed in, delivered his paper, and dashed back to his beloved Leonship. Saw Scotty and upbraided him for taking two centers from Rice; he apologized and Rice took Texas anyway. Moore was there. Getting old.

The old political machine comes to life. Bartram will be put on the ballot by petition. Kidding aside, it is better so.

I think by now, I have some faint idea of what I am supposed to be doing, and am enjoying doing it.

Things going pretty good at home, with Jerry apparently content.

With best wishes,
Merle J
