Dear Dr. Stenzel,

I have at last got round to my promise to send you some Ostrea gigantea Solander from Barton. I have sent off by parcel post three more or less complete valves, which are all that I have. Please keep these. They are from the Middle Barton Beds and so are from the type locality and horizon.

With regard to your other enquiry, I have looked through my collection for specimens of Ostrea heteroclita and O. eversa from the Wrench Thanetian, but regret to have to report no success.

Please let me know if I can help on any other occasion.

Yours sincerely,

Dennis Curry.
