1 May 1970

Dr. Henryk B. Stenzel
Department of Geology
Louisiana State University
Baton Rouge, Louisiana 70803

Dear Henryk:

Only because it is you who makes request I am willing to add the Mirkamalov reference, because this is merely an abstract. Is the "laboriously photographed copy of his newest work on oysters" in press somewhere?

This would be the significant reference. In any case, an English translation of the Russian title is needed. This was not supplied by you. Is my translation as follows satisfactory? [On the species Rhynchostreon columbum (Lam.) and its generic placement (abs.)]

How soon do you think we can have everything put together so as to send Vol. 3 of Part N to the press?

Incidentally, referring to yourself, what is a Consulting Professor?

With personal best wishes,

Sincerely,

Raymond C. Moore
